**DOES CHRISTIAN SCIENCE HEAL?**

Does Christian Science heal the sick? is a question that is answered today in a most practical way. In all parts of the civilized world may be found living witnesses to the healing power of Christian Science. These recipients of God's blessings will tell you that they owe a debt of endless gratitude, not only to the one God and to His Son, Christ Jesus, but to the beloved Leader of the Christian Science movement, who, in the year 1866, discovered the science of Christianity, and labored unremittingly and unselfishly to make it available to the whole world.

A correct or scientific understanding of God heals because it cannot help healing. Healing through Christ, Truth, takes place as naturally as the shining of the sun. Every ray of spiritual light that floods human consciousness declares the presence, power, and glory of God and His Christ. How, then, can it avoid dispelling the dark shadows of finite

sense? Truth heals because it has no affinity with error; Love heals because it has no affinity with hate; Mind heals because it has no affinity with matter.

**CHRISTIAN SCIENCE TREATMENT**

Treatment in Christian Science means doing something for the sick according to an understood Principle, instead of experimenting upon them with poisonous drugs, and then waiting for days, weeks, and sometimes for months, to see whether they get well. Christian Science treatment gives sight to the blind and hearing to the deaf, by doing something for them which no other form of treatment ever has done or ever can do.

**PROTEST COSSACK VISITOR**

Vigorous objections to the admission into the United States of Gregorie Semionoff, self-styled ataman (headman) of the Russian Cossacks, has been made by the American Legion, appearing before Secretary of Labor Davis. The Legion claims he is an undesirable alien. He has been granted permission to stay in the country for six months.

**SICK SOLDIERS MUST WORK**  
Thousand of disabled soldiers who should be in hospitals are forced to work and support their families because their compensation claims have not been allowed, according to the American Legion. Hanford MacNider, erans' Bureau to effect prompt adjustment.
