

Local Leaders Organize Woman Voters' League

(Continued from Page 1)

are the great common interests which may be served best by common action.

Challenge to Women

"The fact that Illinois stands twenty-fourth in the rank of its public school system, is a challenge to women. Its 12,000 school districts with the correspondingly large number of one-room schools shows how far behind we are in the march of school organization.

"The League of Women Voters stands ready to work with all organizations of similar purposes, whether of men or women or both. It urges its members to enroll in the political parties which their judgment approves and in every other way to actively participate as citizens in the management of our government."

Following Miss Rockwood's talk a vote was taken, which proved to be unanimous, in favor of starting a local branch League of Women Voters, which should function through the State committee, which in turn functions through the National committee.
