**Printing Telephone Directories Big Job**

Some startling statistics which reveal the development and widespread use of the telephone, have been compiled by a Chicago printing house, which prints telephone directories for many cities.

This printing establishment announces that in 1920 it printed 6,699,000 telephone directories, using 18,350,420 pounds of paper, which required 459 freight cars to transport it from the mills.

These directories if placed end to end would reach from Chicago to Jacksonville, Fla., and the paper stock if made into a strip one foot wide would reach from the earth to the

**N. U. Prof. Claims Discovery of Cowardice Cause**

Cowardice is a matter of physiology and not of mentality and character, according to a theory advanced by Dr. Charles Louis Mix, professor of clinical medicine, Northwestern university.

"Fear is caused by the suspension of secretion by the adrenal glands, which are just above but not connected with, the kidneys. It is this stopping of the secretions at the moment of fright that causes the dilated pupil of the eye, the dry mouth, shaking knees and soaring heart that are the symptoms of fear.

"After the first moment of alarm, the glands renew their secretions with more than normal activity, thus restoring the balance of courage and enabling the animals under observation to cope vigorously with the situations confronting them."

The new discovery, it is said, opens the possibility of making all men highly courageous, eliminating congenital cowardice and establishing absolute tests of the capacity of individuals for perilous ventures where the individual's safety depends upon quick, cool headed action.

The scientists who are following the investigation expect to evolve some means, medical or surgical, that will increase the flow of deficient adrenal glands and speed up the reactions if the glands are tardy in their recovery from the fright inhibition.

moon and more than half way back.

To set the type contained in the listings of these directories would occupy one man's time at a linotype machine for nearly forty years and if the directories were printed on an ordinary cylinder press, running eight hours per day, it would require seventy-five years to complete the run.

**TAYLOR**

**Your Money Will Go Farther At Taylor's**

We have stated repeatedly that you can save money by trading in Winnetka. People who trade at Taylor's (and most Winnetka people do) know that this is a fact.

If there is the slightest doubt in your mind, it will pay you to visit our store and see for yourself. This week and next we are offering some real bargains that will make you think you are living in the good old days of pre-war prices.

Here are just a few of them:

**Witt Corrugated Ash Cans.** The regular price on the 20 gal. size just a few months ago was \$6.00. Taylor's price now.....\$4.75  
Other sizes proportionately as low.

**Witt Corrugated Garbage Pails.** You can now buy a 12 1/4 gal. size which is what most people buy at the unusually low price of .....\$2.50  
The regular price on this size used to be \$4.00.

**Mirro Aluminum Double Boiler.** 1 1/2 qt. size reduced from \$3.85 to .....\$2.70

**West Bend Aluminum Double Boiler.** Formerly \$2.25. Taylor's price now .....\$1.70

**Mirro Aluminum Sauce Pan.** With insert cover. This is a very popular item in our line sold originally at \$2.15. Taylor's price now .....89c  
Come early if you want one of these for they are going like hot cakes.

**Carpenters and Builders Attention.** Buy your nails at Taylor's. Our price (base) is \$3.65 per keg. This is the lowest price we have ever quoted and we doubt whether you can better it elsewhere.
