Local Schools Ask

Increased Income

(Continued from First Page.)

higher amounts than we do after all these increases.

We may perhaps anticipate that further increases in the salary schedule will not be immediately necessary. Nevertheless, the 9% annual increase in pupils will mean an addition of four or five teachers to the staff of the schools each year. It is because we believe that the citizens of Winnetka will not be willing to permit their teaching staff to fall below the level of the neighboring communities, or, in fact, below the level of public schools anywhere, that we have concluded that they will want the tax income increased.

Small Classes Cost Money

A standard of thirty pupils to each teacher means a room for every thirty children. This means fuel, light, janitor service, repairs, etc. About 20% of our annual budget goes for these purposes. This expense, like salaries, arises roughly in accordance with our number of pupils. Of course it is not a steady increase, because it arises as we supply additional buildings and rooms. But such increases in room space may be looked for continuously in the future. Of course, if we are willing to pack our rooms and run up to 45 pupils as in the Chicago schools, or to 60 as there are in many cities, we can economize on operating expense. But we do not believe that the citizens of Winnetka wish to recede from this standard any more than from the standard of good teachers.

Actual Increase Small

What does the increase mean? The present tax rate in Winnetka is \$10.07 upon a very low assessed valuation. Of this amount grade schools receive only \$2.75. The Legislature has authorized an increase of the grade school rate to \$4 upon a referendum and we now ask authority for such increase. The authority will not, however, be exercised at present to the extent of more than \$3.50—i. e., an increase of 75 cents, or, roughly, 7½% on the total tax rate. In other words, the tax payer who is now paying \$10.07 would, under the increased levy, pay only \$7.50 more.

Glencoe has increased its rate by a vote of 5 to 1, and one of the districts in Highland Park by a vote of 7 to 1. I do not believe it too much to say that for most people in Winnetka the schools are the most important single function of its government, and while the Board of Education regrets that under present conditions it is necessary to ask an increase, it is confident that such increase will be willingly voted.

Christian Callings Subject at Sunday Morning Services

Tomorrow morning at the Winnetka Congregational church Rev. James Austin Richards, pastor, expects to preach upon "The Call of the Prophet." This is the subject he announced two weeks ago in connection the very wide-spread effort of these days to bring the Christian callings to the intelligent attention of those who are choosing a life work for themselves or assisting others to make a choice. The sermon will be of interest to all young people and to all who are interested in young people.

Playfield Plans Big Year At Annual Session

(Continued from First Page.)

tion of the course in the coming year. During 1921 the board issued tags representing 284 family memberships, 69 adult male, 20 women, 9 junior (19 to 21 years) and 50 minors' (18 years and under) memberships. One thousand, two hundred and eighty-four non-resident players and 220 guests registered at the first tea and paid the required fees.

New Fee Schedule.

With a view of limiting somewhat the invasion of the course by non-residents and acting on recommendations of the Playfield association, to this end, for an increase in the fees charged non-resident players and also those for residents (to offset the probable decrease in revenue from non-residents, Mr. Rumsey announced the following schedule of fees which the Park Board will put into effect for the coming season:

Family Memberships.....	\$12.00
Adult Men	12.00
Women	7.00
Juniors	5.00
Minors	3.00

Non-residents:

Saturdays, Sundays and holidays	3.00
Week days.....	1.50

Non-resident guests playing with residents

.50
These rates are a compromise between the present rates and those recommended by the association to the Park Board.

Secure Competent Starter.

The Park Board expects to have a competent starter at the first tee throughout the season and will install a system of registration which, it is hoped, will operate to the benefit particularly of resident players and eliminate abuses and evasions of established rules and regulations.

Mr. Rumsey announced that an additional tractor and mower have been ordered and that the board expects to make every effort, within the limits of its available revenue, to improve the course and keep it in first-class shape.
