

## ATKINSON DIRECTOR AT ADELPHI THEATRE

Dr. Sam Atkinson, noted lecturer and pioneer in the motion picture field, who was formerly directing manager of the Hoyburn theater, Evanston, has become affiliated with the famous Ascher Brothers, prominent motion picture magnates of the middle west. Dr. Atkinson becomes directing manager of the Adelphi theater, 7070 North Clark street, Chicago.

Dr. Atkinson, who is an Evanston home owner, enjoys a wide acquaintance on the north shore. Besides appearing prominently in connection with motion pictures, he has established an enviable reputation as a platform orator and has delivered lectures in every section of the country on economic questions, particularly as pertaining to the relation of capital and labor.

"Growing up," so to speak, with the motion picture industry in California, Dr. Atkinson was responsible in large measure for the abolition of the intolerant motion picture censorship in that state several years ago. He has always been an advocate of "clean" films and is one of the leaders in the development of the educational film, designed to be instructive as well as entertaining.

## FRINT GEORGE BECOMES REALTOR HOME BUILDER

Frint George, well known to Wilmette and north shore residents through his affiliation with the theatrical business, has forsaken that field to become a real estate broker and builder associated with M. E. Barker and company, north shore realtors.

Mr. George was for twenty-two years one of the leading officials of the Western Vaudeville company. More recently he has been engaged in constructing attractive north shore homes

known as the "Frint George Custom Built Homes." His affiliations with M. E. Barker and company, is heralded in north shore realty circles as one of the important additions to the working staff of that prominent firm.

Homes built in the village by Mr. George are said to be among the most complete structures known to the art, containing everything from breakfast nook to billiard room, and radio equipped. One home at Greenleaf avenue and Eighth street, of brick construction is so individualistic in design that several architects are said to have inspected the place with the object of following out the scheme of construction.
