NEW TRIER ECHOES TO BE EXCELLENT EDITION

New Trier Echoes, an annual magazine issued by the senior class of New Trier Township High school, which is soon to be off the press, promises to be bigger and better this year than ever before, according to word from Echoes editorial offices.

In former years very few students have assisted in producing the year book, but this year every senior student, known to have talent along certain lines, was called upon to aid in the production. Under the management of a large staff, the magazine has developed rapidly and will be in the hands of eager readers within a few days.

New Trier Echoes contains a review of all the activities of the class of 1922, in athletics, dramatics and scholastic work. A picture of each member and a class prophecy dealing with the future status of each senior has been written. In addition to these features there is humor with the essential local application, many snapshots of school and campus life, and cartoons of original design.
