PLAYERS MAKE PLANS FOR BIGGER SEASON

One Performance to Feature Original Play

With its season of activity brought to a close several weeks ago, the youthful and talented members of the North Shore Players, dramatic organization, are preparing for intensive activity in the year to begin late in September.

Giving their services without thought of financial remuneration, all the Players are preparing for a season of intense activity that is to open late in September.

Plan Five Performances

"Plans are in course of formulation to give the north shore five first class performances in the next season," President Spiegel announced in an interview this week. Four of these productions will include such popular vehicles as "Officer 666," "It Pays to Advertise," "Clarence," and "Nothing But the Truth."

"The fifth performance is to be something entirely unique in the annals of north shore theatricals. It will comprise three one-act plays, entirely original, and which are to be selected from a wide range of material submitted by aspiring playwrights in every section of the country. Competent judges will select the three best plays among the numerous manuscripts submitted. It is interesting, in this connection, to learn that more than thirty manuscripts have already been submitted. These have come voluntarily, without any suggestion on the part of the North Shore Players. In fact, it was this voluntary submission of manuscripts that actuated the decision to launch upon the venture.

Mrs. Landis To Direct

"Retention of Mrs. Jessie Royce Landis as director for the coming year, we consider, will insure us a season of unprecedented success," Spiegel stated. "Mrs. Landis has promised to assume personal charge of the direction for each performance and the exceptional merit of the recent performances by the Players under her expert supervision, gives promise of even more efficient work in the future.

"The first step at the outset of the new season will be the annual call for tryouts for roles in the Players' ranks. These tryouts are open to every resident of the north shore and ability to adjust oneself to a part is the only requisite for admission into the select circle of those who will appear in the various casts. Of interest to many residents is the fact that these tryouts will include trials for places in the business administration and stage management departments of the enterprise. Those not proficient in acting, thus, will be affording an opportunity to find a place in the very essential and altogether interesting work "behind the scenes."
