

HIGH SCHOOL GRADS STUDY COMMERCE

New Trier Students Take up Commercial Courses in Annual Summer School

REGISTRATION IS 400

Many Eighth Grade Graduates Enroll for Work

An opportunity to secure an elementary commercial training is foreseen by many students of New Trier Township High school who are planning to attend the summer sessions at the school beginning Monday, June 19. Most of these students find no time during the regular school year to take up work in the Commercial department but desirous of securing that training in addition to that afforded in the other departments.

Largest Attendance

Preliminary registration for the summer school shows that approximately 400 students will be in attendance at the sessions. This is a substantial increase over the attendance of previous summers.

While many of the students are "making up" courses in which they have failed, the majority are said to be ambitious students working for additional credits.

Most of the students in the Commercial department are graduates of this year's class.

About sixty eighth grade graduates in the various north shore villages are availing themselves of the summer school work to secure their first taste of high school life under exceedingly favorable circumstances.

As in former years, the classes will be held in the morning from 8 to 12:30 o'clock. Students may carry two subjects for which the regular semester credit towards graduation is allowed. The instruction is given by the members of the regular faculty.

The school natatorium will be open for the entire eight weeks. The schedule of the swimming classes is indicated on special posters which have been placed in shop windows throughout the township.

Kenilworth Happenings

MISS RUTH E. WATT, daughter of Mr. and Mrs. Frank Watt of Kenilworth, will be the bride of Ralph Emerson Brown of Evanston at eight-thirty o'clock, Saturday evening at the First Congregational Church of Wilmette. THE CADILLAC SUBURBAN TYPE 61

Motorists are becoming more and more reluctant to relinquish in summer the many comforts and conveniences of the enclosed car.

The protection afforded from dust, a sudden shower or chilling breeze, and the dirt and soot of city traffic is a decided advantage—yet a few turns of the window handles give Cadillac enclosed cars almost the airiness of the touring and phaeton models.

Sit at the wheel of any Cadillac enclosed model and you will be impressed by its response, flexibility, and handling ease. It will be a pleasure to arrange this demonstration at your convenience.
