Eight N. U. Students Made 'Shavetails' In U. S. Reserve Force

FRENCH NEWSPAPERS OPPOSE OIL CLAIM SOUGHT BY AMERICA

Paris—The nationalistic press is criticizing severely the report of M. Laurent Eynac on the petroleum situation made after his return from Genoa, in which he urges that France support American claims and points out that the interests of the United States and France in petroleum concessions are identical.

Eynac is accused editorially of defending Standard Oil interests against Shell interests and playing an American game against England a violation of French neutrality.

"If France declares war in Europe, as our born reactionaries dream," asks Gustave Tory, in Oeuvre, "can one seriously believe that the United States will nourish our airplanes, our tanks and our submarines with petroleum, the very United States that denounces our militarism as with a flail?"

And again, "The true French policy should consist in profiting by the rivalry of the Standard and the Shell and while there is yet time to assure to France, under the most advantageous conditions, that petroleum production, which is not less indispensable in peace than in wartime."

Helpful.

The only obstructionist we can tolerate is the friend who puts a good thing on our way.—Boston Transcript.

Do We Agree?

That time has passed, when each car owner could expect and receive special, individual attention from the automobile manufacturer.

Since the business has grown so large, the purchaser and car owner must look to his dealer for personal consideration and attention. The ability, character, stability and personality of the Dealer, then, is the most important question.

"Where to buy?"—

Here is the oldest automobile organization on the North Shore. We have the facilities and "desire" to render personal attention with mechanical service. More than 2000 Ford owners will recommend consideration of our facilities. Facts, not Promises; Real Service at
