### Must Follow Ordinances to Secure Annexation

Resolutions were passed at the Winnetka Village Council session Wednesday of this week advising the Lake Shore Realty company, owners of the new Manus Indian Hill subdivision, that if the owners expect to apply for annexation of the tract to the village of Winnetka compliance must be made with every requirement under the existing ordinances and with the rules and regulations of the Village Water and Light department.

A copy of the resolutions was ordered dispatched to the owners.

The Manus Indian Hill subdivision is located south of Winnetka avenue, immediately west of the Chicago and Northwestern railroad right-of-way.

It is reported that application for annexation will be made in the near future.

### A message to your architect

You, as a designer of buildings, study and know building materials. Very often, in order to get the material you want for certain construction, you are obliged to specify fully the quality, the variations which are permissible, and every detail. It's a long job—and even then it is sometimes impossible for your client to get what you know he should have.

#### But it's different with lumber

You can specify according to **CRLDA** Grading Rules. Then you can be sure that any member of the Chicago Retail Lumber Dealers Association will deliver according to the grade you specify. More than this, these members guarantee full measure—1,000 feet for 1,000 feet. They recognize the value of high business standards in permanent business success.

NOTE TO PURCHASER: Your architect specifies **CRLDA** grades for your advantage. Be sure that your lumber is bought from a dealer who has the right to use this trade-mark. Then you are guaranteed satisfaction.
