

WARD FOR CHILDREN INSURES BEST CARE

Evanston Hospital Opens
Section Exclusively for
Children's Ailments

HUNDREDS INSPECT

Located on Second Floor of
Cable Building

The newly opened children's annex of the Evanston hospital will doubtless be of interest to residents in the North Shore towns on account of its unusual features and provisions for the care of children. The annex was opened for inspection Monday, July 17, and hundreds, both from the North Shore towns and Evanston, visited the remodeled building.

Since the completion of the new general building to which the administration offices have been moved, Miss Ada Belle McCleery, superintendent of the hospital, has been busy renovating the two older buildings for the purpose of making the second floor particularly a children's department. This was the original purpose of the building as specified by the donor, Mrs. Herman D. Cable.

Has Children's Playroom

Most of the rooms on the east and west of the main corridor through the Cable building have been converted into the children's ward. The first room contains two beds separated by a glass partition and is to be known as the observation room for children. All children will be taken here for cultures when first they enter the hospital. The children's ward opens onto the sun porch and has been redecorated and refurnished. The sun room itself will be used as a playroom for the children. It is childlike in its decorations with its blue and white ruffled curtains, its white enameled furniture with color designs painted on. The goldfish aquarium and canary cages are calculated to catch the eyes and delight the senses of the youngsters.

In the special kitchen the children's food is prepared under the direction of Miss McCleery and the facilities are excellent for the accomplishment of this object. The kitchen itself is a model of cleanliness.

Provision for Mothers

The rooms in the old administration building, which is connected with the Cable building, have been converted into tasteful private rooms for little children, each room containing a bed for the child and one for the mother if the child is seriously ill and requires her attention. The white enameled furniture with its painted colored designs has been especially planned to meet both the physical and mental requirements of the juvenile tenants. One side of the hall has the decorations in blue and the other in pink. The old diet kitchen and the bath-rooms have been eliminated and the rooms thrown together. Provision for tonsil cases has been made here, the room containing four beds where the children will stay for the two or three days necessary to recover from the operation.

The closing of the stairway out of the old general offices has eliminated all the noise and disturbance from the first floor so the little tots can rest in quiet.

The large sun porch on the east ex-

GOLF FANS PAY HIGH FOR OVER ENTHUSIASM

Speeding Motorists Help To
Swell Treasury

Skokie's golf course is full of hazards which embarrass the players and make the game thrilling. The players were not the only ones present at the tournament who experienced difficulty with hazards last week. Sheridan Road has four of them in the person of four motorcycle policemen from Wilmette and Kenilworth.

Twenty-two motorists intent upon reaching the links in time to see a full round or anxious to follow a favorite around the course met the hazards and lost considerable time before they could resume the trail.

The case of Arthur Brooks, of Indianapolis, was perhaps the most pathetic. Brooks was speeding up Sheridan road at 40 miles per hour when Henry Brantigan, one of the hazards, motioned him to the side of the road.

"Officer," he said, "I am on my way to see my first golf match and I was afraid I would be too late." The officer was sympathetic but unable to pardon him after considering the speed. Magistrate Mickey assessed a fine of \$20 and costs against the fan.

Several of the cars were loaded with stars returning after a hard day's play, although none of them were driving at the time. Newspaper reporters, bankers, caddies and actors were included in the haul. The results follow: H. L. Shuster, Chicago, \$10.00 and costs; H. Klee, Chicago, \$25.00 and costs; J. Benson, Evanston, \$5.00 and costs; E. H. Lyons, \$5.00 and costs; Fred Gardner, Chicago, \$10.00 and costs; W. L. Jameson, Glencoe, \$15.00 and costs; W. C. McFarlan, Evanston, \$5.00 and costs.

Dr. A. C. McCullough, Lake Forest, \$10.00 and costs; G. C. Stewart, Chicago, \$10.00 and costs; F. A. Wagner, Chicago, \$5.00 and costs; C. Furbe, Oak Park, \$25.00 and costs; W. R. Dyer, Wilmette, \$5.00 and costs; Dr. W. W. Kelly, Green Bay, \$20.00 and costs; R. D. Hallstead, Evanston, \$15 and costs; H. G. Wiener, Chicago, \$20.00 and costs; F. B. Howell, Chicago, \$20.00 and costs; C. W. Steger, Oak Park, \$15 and costs; Mile Jever, Chicago, \$15 and costs; A. Brooks, Indianapolis, \$20 and costs; H. C. Capper Chicago, 10 and costs; Peter Flanzuza, Chicago, \$10 and costs.

Bee Sting Causes Man to Lose Control of Car

Tecumseh, Mich.—J. D. Cox, of Detroit, en route to Rome City, Ind., with his family, for a vacation, lost control of his car here when a bumble bee alighted on his nose and stung him severely. The car swerved into a ditch and turned turtle. Mrs. Cox sustained a broken arm. Cox, his brother and two children, were uninjured.

posure is being prepared for convalescent children in order that they can get the fresh air and the out-of-door benefits without being taken down on the lawn.

Miss Grace Dunning, a graduate of the Children's hospital in Boston, is in charge of the children's division. She has had charge of this department of the Evanston hospital for the past year. The rooms were opened for the admission of patients Monday, July 17.
