

WEDDINGS FEATURE EARLY FALL DAYS

Plans Completed for Opening of Club Season in All North Shore Villages

HARVEST TIME NEAR

Golf Club Planning Harvest Home Tournaments

Summer days are slipping by rather hurriedly, and soon vacationists will be returning to the north shore to again become interested in the various clubs, schools, and early fall activities. And those women who have been diligently working on programs for the coming season at the Woman's clubs, have turned in their material for the Year Books at the printers, and hurried off for a much belated season's rest. Attractive programs, with interesting speakers and some delightful music have been arranged by the program chairmen, in the hope that this season may be even more successful than the last.

At the Golf clubs, even at this early date, a word is dropped now and then concerning the plans for the annual Harvest parties and with the passing of Labor Day, activities at these summer clubs will be on the wane.

Many Autumn Weddings

Many of the young people have preferred to wait for the cool autumn days for their weddings, and the early months of this fall will see many interesting nuptials. On Tuesday evening, August 29, Miss Helen Osgood will become the bride of Mr. John Stuart King, son of Mr. and Mrs. Thomas C. King of Glencoe. The service will be read in the Congregational church of Wilmette, by Rev. Stephen A. Lloyd. Miss Osgood made her home in Wilmette for several years previous to her family's departure to Lowell, Ind., and was very popular in New Trier and Northwestern university circles.

On September 2 will occur the marriage of Miss Katherine Smurr, youngest daughter of Mrs. Maude V. Smurr of Evanston, formerly of Wilmette, to Mr. J. Milo Dickman of Fayette, Ia.

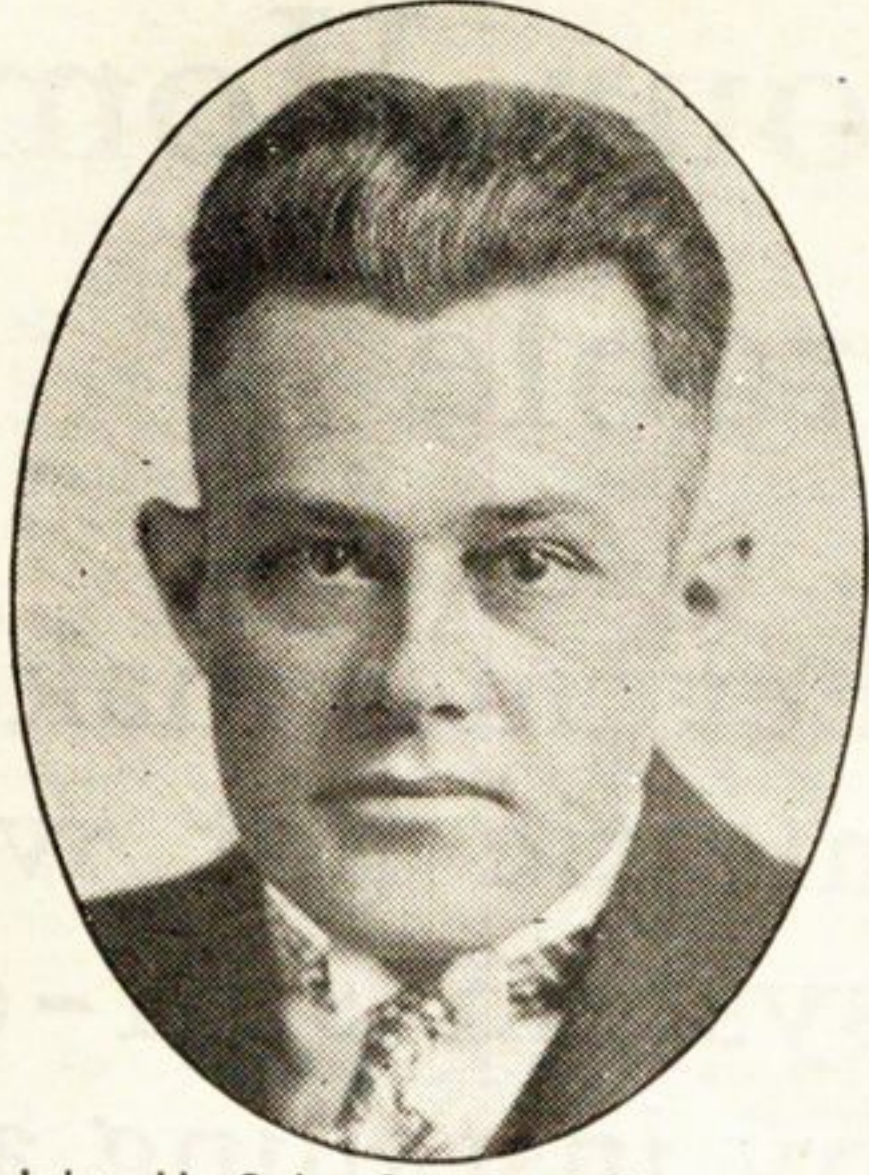

Other autumn weddings will include the marriage of Miss Bernice Shurtleff, daughter of W. C. Shurtleff of Wilmette, to Mr. Munroe Cole, also of Wilmette, and that of Miss Katherine Scheidenhelm, daughter of Mr. and Mrs. Edward L. Scheidenhelm, to Mr. John W. McPherrin of Cincinnati. Miss Mary Gallagher, daughter of Mr. and Mrs. F. H. Gallagher, of Wilmette, will become the bride of Stanley Franzen of Evanston, probably late in September.

Miss Elizabeth Ambuhl, daughter of Mrs. Ella V. Ambuhl of Evanston, has set the date for her marriage to Thomas Staver Moulding of Wilmette, for early September, and, later in the season, it is most probable that Miss Ruth Moulding, daughter of the Thomas C. Mouldings, will become a bride. October 7 is the date set for the wedding of Miss Helene Eleanor Doty, daughter of Mr. and Mrs. Marshall Lloyd Doty of Wilmette, to Hugh Scott Whipple of Medina, N. Y.

THE BOY SCOUT

Who can estimate the potential value to the nation of the 425,000 Boy Scouts of America? They outnumber our combined army and navy, and with their acquired habits, and clean living they will exert an influence for good in the years to come, the value of which is beyond comprehension.

Personality Wins

John H. Schaefer, of Schaefer and Golbach, Investments, Insurance and Real Estate, is one of the best and most favorably known of the business men of the township. His long experience in the investment field has firmly established the business on the north shore.

Jobs Open For Valuation Engineers at \$3600-\$4800

Washington, D. C.—The collection of the income tax becomes a complicated affair after it passes the point of figuring the return of the average wage earner. That part, of course, is simple.

The technical staff of the Bureau of Internal Revenue at Washington is in need of valuation engineers in general mining, coal mining, oil and gas, and the forest industry. The positions pay from \$3,600 to \$4,800 a year. The United States Civil Service Commission will receive applications until October 1. No written examination will be given; the ratings will be based upon education, training, experience, and physical ability.

The duties involve estimation of quantities, market values, value of equipment, cost of development, etc.

Full information and application blanks may be secured from the United States Civil Service Commission, Washington, D. C., or the civil service board at the post office or customhouse in any city.

HOYBURN THEATRE

615 Davis St. Evanston

MOTOR CAR MAKERS TO FIGHT BANDITRY

Stolen Car Game to Be Checked, They Say

Stolen car bulletins issued regularly with car number, motor number and owners' names, is one of the means the manufacturer is taking to co-operate with police bureaus throughout the country and help owners recover cars which have been stolen.

The plan used by Dodge Brothers, Detroit, is endorsed by New York and

Detroit officials. Judge Fish, of the Brooklyn Traffic Court, describes it as an excellent plan and one which should increase the number of convictions for motor car thefts. Dodge Brothers maintain a department to deal with motor car thefts reported by owners and insurance companies. Every two weeks the complete list reported is sent to Dodge Brothers dealers and service stations in all parts of the country. Copies of the bulletin are also mailed to a national list of police bureaus.

A prominent police official states that the cars which are stolen in Detroit each year go not only to neighboring cities and farm communities, but to points far removed. Cars which are recovered in Detroit sometimes have been brought there from the Pacific Coast as well as from far distant eastern and southern cities.

A favorite scheme of the shrewd

stolen car merchant is to pass himself off as the representative of an insurance company, in this way accounting plausibly for the low price he is asking for the cars. The farmer is considered a good stolen car prospect, and if the stolen car broker finds a fertile field for his wares in one farm community, he may go back again and again, disposing of his cars in that vicinity. That is why whole fleets of stolen cars are sometimes driven back to the cities by detectives.

Dodge Brothers stolen car service is commended by Inspectors Jackson and Parker, prominent Detroit police officials, as "a splendid service" and "a great help to us and to other police departments."

Any degree of cold or warm air is furnished by a recently invented electric blower and heater.

Be a Home Booster!

Your home town merchant is vitally interested in your merchandise requirements whether you buy dry goods, hardware or automobiles. He is here to serve you.

The only Ford dealer in New Trier township offers you convenient and efficient service. A large stock of parts and accessories is always ready for your requirements.
