

CLAIM MANY GARAGES FAIL TO OBEY LAWS

Investigators working under the direction of Secretary of State Louis L. Emmerson, report that the section of the automobile laws most generally ignored is the provision requiring garages to register the numbers of all cars brought in for storage or repair. The record, if the law is complied with, should show the license number of the car, the serial number and the engine number.

The purpose of this act is to make the detection of automobile thefts easier and to facilitate the return of stolen cars.

Secretary of State Emmerson collects from local sheriffs and police authorities the numbers of all stolen automobiles. These are published weekly in bulletin form and sent to all sheriffs and chiefs of police in the state.

If every garage kept a register showing the numbers of cars brought in for storage or repair, it would be much easier for the police to trace these cars.

Investigation shows that only a small percentage of garages comply with this law.

Never Fails 'Em

Henry B. Gates, District Superintendent of the Evanston (including north shore) Districts of the Illinois Bell Telephone company, is a past president of the New Trier Commercial association and one of its charter members. He has directed several New Trier Days and is on the job to help out in this year's venture.

Leo the Worker

Leo M. Dean, native of Missouri, has been established in the milk business here for some years. He is an active member of the New Trier Commercial association and formerly served as President of the organization. He can be counted upon to do his share to make things hum on New Trier Day.

Do You Really Know Comfort?

Many women who have accustomed themselves to high heels and pointed toes say, "Oh, my shoes are perfectly comfortable!" As a matter of fact they have forgotten what real comfort is. And they do not realize that the penalties of unnatural footwear may be felt in other parts of the body than the feet. The Cantilever Shoe provides such normal, absolute ease that discomfort and fatigue become as foreign to the feet as to the hands.

Not only are the lines natural and the heels built for perfect balance and support, but Cantilevers have a flexible arch which permits the foot to bend freely. This gives strengthening exercise to the muscles and eliminates any possibility of weak arches.

Call and try on a pair of Cantilevers—learn what comfort really is.

Respectful Attention

We have never lost the reverence for the dead that is inherent in the normal mind. When your loved ones are placed in our care, you may rest assured that the clay will be awarded the same respectful, reverent care that you yourself would give, were it possible.

The particular folks of Evanston and North Shore have found us worthy of the great trust—you may be sure that we will never be less worthy.
