

ALL GRADE CROSSINGS MARKED FOR MOTORISTS

Every dangerous grade crossing in the state has now been marked with "Stop" signs under the provisions of a law adopted in 1919. Other crossings are marked with a quartered circle containing the letters "R. R." The law provides, Secretary of State Louis L. Emmerson pointed out, that wherever one of these "Stop" signs appears the driver of an automobile must bring his car to a full stop before proceeding over the crossing. At other crossings he must reduce the speed of his car to ten miles an hour. "The provision of the law is a wise one," he said. "It is for the protection of the automobile driver and the occupants of his car. He should, of course, comply with it willingly. But unfortunately, a large percentage of the drivers pay no attention to these signs whatever. They go over crossings at high speed regardless of "Stop" signs and thus endanger their lives. A few arrests for the violation of this law in each community would have a salutary influence and would contribute materially toward the reduction of grade-crossing fatalities.

Knows His Line

Harold Hill, of the Winnetka offices of Hill and Stone, realtors, is one of the leaders in the North Shore Real Estate Board of Suburban Chicago. He is a charter member of the organization, which is one of the most important civic organizations in the township.
