

**Jottings From
New Trier High**

A great deal of interest is being taken in the production of "Alice In Wonderland," to be given in the New Trier Auditorium, Friday and Saturday evenings. Dr. Butler, librarian at the Newberry library, Chicago, when he heard of this play to be produced by the high school Dramatic club, said, "Alice in Wonderland" is my favorite book. I am going out there to see it."

A special performance for the grade school of the north shore is to be given Friday night at 8 o'clock. The parents are welcome with the children.

The Soccer team won from Oak Park last week and still has a percentage of 1,000. The football team was defeated by Bloom, but still holds a second place in the Suburban league.

Mr. Jones of Evanston gave a very interesting illustrated talk on his trip through South America, before the students in the Assembly Friday morning.

During the ninth period each day Mr. Harper is conducting a special class in mathematics for students who are not able to carry their work in the regular class. At this time they get individual instruction that assists them in mastering their difficulties. The class is planned especially for those who entered school late, those who have been absent, those who have come from other schools and whose work in preceding courses has not been as extensive as that in corresponding courses at New Trier, and for those who are slower than others in grasping the work.
