ciated with a race preceding the Aztecs, according to J. Allard Jeancon, curator of the Colorado Historical and Natural History society and at one time special archaeologist for the Bureau of American Ethnology at Washington.

"If this stone can be proven genuine it is the biggest find in all anthropological research and antedates anything on the American Continent going to establish the remote antiquity of man," continued Mr. Jeancon. "I have never seen such remarkable outlines of dinosaurs and mastodons."

The rock image represents early man sitting and holding a tablet with On the tablet are hieroglyphics which, electric portables shop worn and used, in a measure, resemble signs of the Aztecs, Utes and Mormons. Scientist in New York, Washington and Santa Fe are trying to decipher these characters, according to Mr. Chalmers.

The image through changes in the consistency of the rock has become harder than steel. This indicates the numerous uplifts in the Rockies, several times nearly worn away, and the contention of certain geologists that the stone may date back thousands, if not millions of years.

In the meantime Mr. Chalmers is receiving requests from museums and research societies for the privilege of taking plaster cast impressions to study the rock image under a strong glass, or to borrow the freak stone.

Brightest Star in Rubber Firmament—Claim

The General Tire and Rubber company which was the brightest star in the rubber firmament at annual meeting time a year ago, has repeated in 1922. At the annual meting just held at Akron, Ohio, the balance sheet and report of General Manager O'Neil showed a condition rather unusual post-war boom.

For 1922, General shows earnings of \$1,021, 739 on a sales volume of \$7, terpiece and others. Prices, Male \$50; 600,000. Sales were about \$6,000,000 for 1921, so that increase in dollars means a very substantial increase in unit sales, the difference to be accounted for by the reductions in prices that have been announced from time to time through the year. In 1922 the Company's surplus was

built up from \$200,000 to \$1.21.739. "Two years ago" said General Manager O'Neil in his report, "we had to write off what were really losses due to the purchase of high priced material, on which prices declined after we had made our contracts. All such materials have been used up, long ago. Despite the fact that crude rubber and cotton have recently more than doubled, we are well coverel for the advances, though we cannot 'write on' profits we will make because of our buying, to compensate for our 'writing off' losses due to buying in the flurry.

MILITARY BURIAL FOR SGT. ARTHUR W. AUSTIN

Military burial was given Sergt. Arthur William Austin, of the United States Marine Corps, at his home in Pleasanton, Kansas, Thursday of this week. Sergt. Austin died Sunday, January 7, a victim of lobar pneumonia. Mrs. Austin, who is remembered in this vicinity as Miss Vida Ambrose, daughter of Mr. and Mrs. D. E. Ambrose, accompanied the remains to Pleasanton.

Sergeant Austin was taken ill last October with a stomach affection and was removed to the Great Lakes hospital from his post at Tulsa, Okla.
