LIBRARY PLAZA HOTEL
EVANSTON

THE finest jewelry shop on the North Shore, maintaining a repair department for watches, clocks and jewelry.

THERE are at the Cadillac Service Station hundreds of tools specially designed by Cadillac tool makers to do work which under ordinary shop practice is done by slow and less accurate hand operations.

These tools, representing an investment of thousands of dollars, in turn save Cadillac owners many thousands in shop charges. Abolishing the usual method of removal of snug-fitting gears, frozen shackle bolts, bushings, etc., with hammer and chisel, they perform their work without damage to parts and with a resultant saving of both material and time.

The Fruit of the Tree of Knowledge

brought discord into Eden, disrupted the entire fabric of the world as it was, and, indirectly, brought about the death of Abel.

Since that time the services of a mortician have been needed in every community; someone to relieve the bereaved ones of the necessary details that their sorrow ill equips them to attend to.

Typical of the most advanced practitioners of this old science, we stand ready to serve fittingly when needed.

Human Factors in Telephone Service

It takes a lot of people, working together intelligently and harmoniously with the best telephone equipment, to give good telephone service.

The engineer who plans the work, the construction crews who build, the operators who give the service, the maintenance forces who keep the equipment in good order—all these and many others co-operate to make Bell service the marvel of efficiency which it is today.

There are 21,000 Bell telephone employees in Illinois and more than 200,000 in the country at large co-operating to give to the American people the best telephone service in the world.
