

HILL AND STONE BUY VALUABLE LAND TRACT

One of the most important transactions in north shore vacant was the sale of the Hambleton Tract (23½ acres) on Sheridan road just north of the County Line by the Hambleton Realty Trust to Hill and Stone agents for the benefit of a syndicate. This property is one of the choicest tracts on the north shore, being located east of Sheridan road and will be known as Hill and Stone's Ravine View Subdivision in Highland Park, taking its name from the beautiful ravines which almost encircle the property.

The property lies directly east of the Braeside station where both electric and Northwestern Steam transportation is available. Charles T. Rothermal, with offices at 39 S. La Salle street, represented the Hambleton interests, and Mrs. E. R. Stone of Hill and Stone, with offices in Wilmette, Winnetka and Highland Park, represented the syndicate.

The property has been subdivided into 44 lots of 100 feet each, the tract is beautifully wooded and promises to be one of the most desirable sections in this fast growing section.

Hill and Stone report that they have already had numerous inquiries for lots in this subdivision.

"DOPE" ATTEMPTS SUICIDE

Galesburg, Ill.—Harry Cline, said to be a drug addict, attempted to end his life in a jail here by hanging himself on the cell door by his trousers. He is in jail on charges of forgery. It was said resentment over attempts by authorities to cure him of alleged use of narcotics prompted his attempt at self-destruction.

Indian Hill-Lake Forest Hockey Game This Sunday

The Indian Hill Country club and Lake Forest hockey teams will clash in a North Shore league game Sunday morning, January 28, at 10:30 o'clock.

As it has been impossible to flood the rink at the club, the game will be played on the pond, leaving little room for other skaters while the game is in progress. The hockey team has won all games played to date this season and the match this Sunday is expected to attract a record crowd to the rink side.

CITES BREAD LAW

Rockford, Ill.—Illinois statutes require that the weight of a loaf of bread be printed legibly on the containing wrapper, according to M. A. L. Olson, food and dairy inspector, a business visitor here. The wrapper must also bear the name of the manufacturer to be in compliance with the law, Olson said.

A Great Banking Institution

recently stated that the securities of public utility companies demand the careful attention of every thinking investor.

Money invested in public utility companies is invested in an enterprise operating as a most essential factor to present day life, selling and delivering their product the same instant it is produced, and receiving compensation practically upon a cash basis.

Public utilities expand as the community expands, and not only profits by the demands of modernized industry, but also reaps benefits of the modern desire for comforts and convenience.

Public utilities are emerging from five years of heavy costs, inadequate rates and general business difficulties, and are experienced in the practice of operating economically.

Certainly a business surrounded by these advantages is a safe place to invest your savings. Let us tell you of the investment features of our Preferred shares.
