## Social Calls By Long Distance

Keep in touch with your friends in other cities by means of the Bell Long Distance telephone system.

Long distance telephone calls have that personal touch which even the most personal of letters lack and are equal to two letters—the one you write and the reply. Besides, they tell in minutes what the written word takes hours or days to transmit.

Evening and night rates for "station-to-station" calls are lower than day rates. From 8:30 p. m. until midnight the evening rate of a little over one-half the day rate applies. From midnight to 4:30 a. m. the night rate of about one-fourth the day rate is in effect.
