300 pounds pressure at a finger touch!

THE "finger flick" control of the shoe (ironing surface) of the new Thor 75 Automatic Electric Ironer brings the shoe against the piece being ironed at a pressure of 300 pounds! Is it any wonder that things ironed on the Thor are marvels of lustrous finish and smoothness?

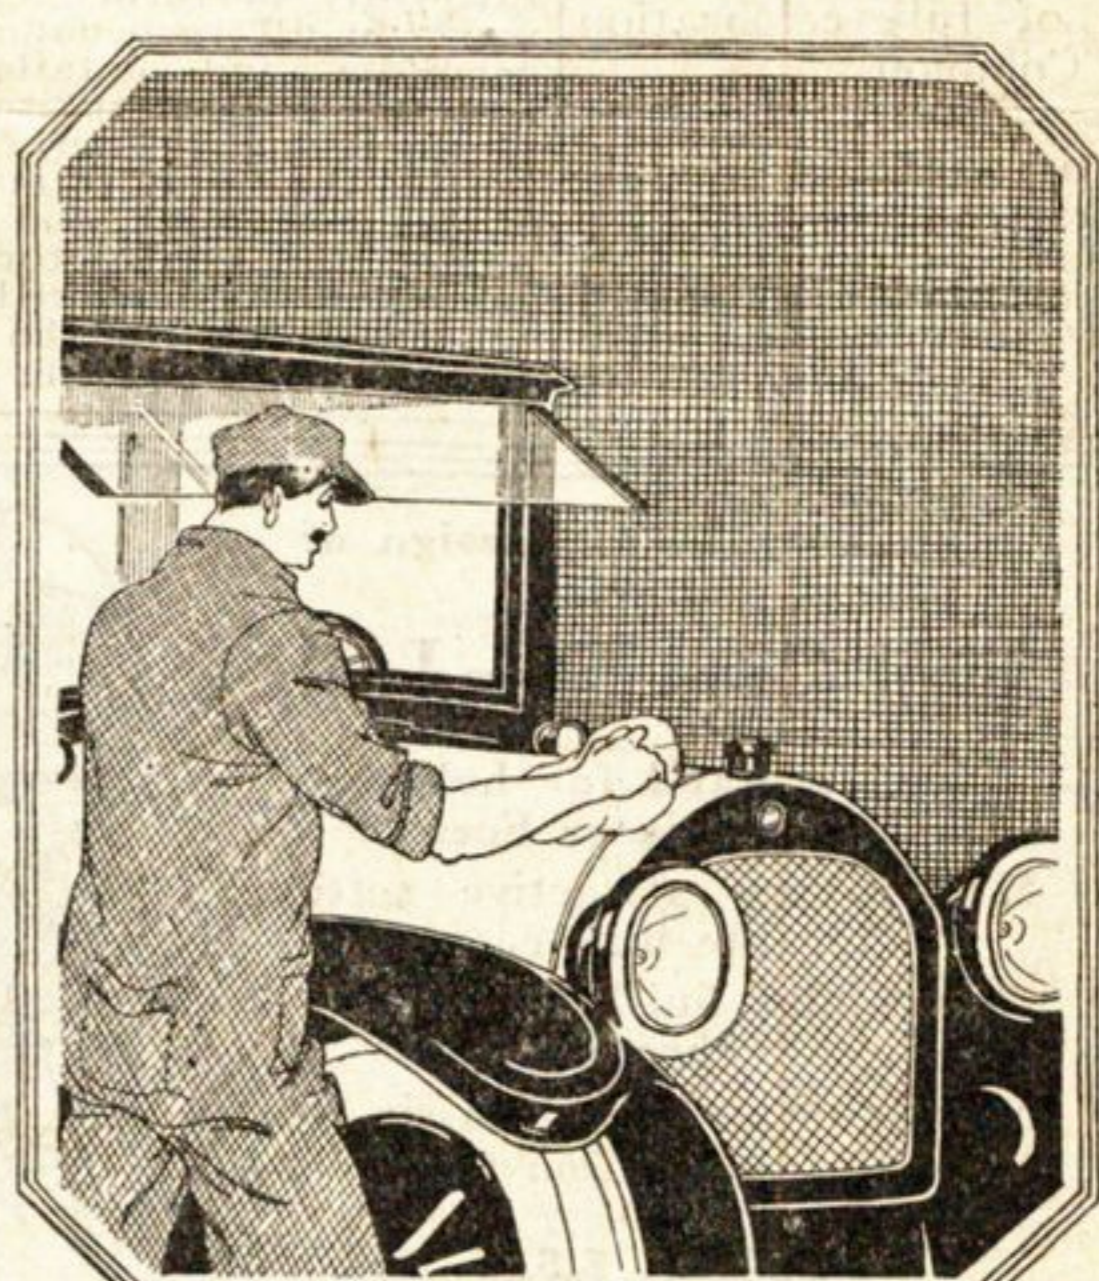

Yet the pressure that gives this finish is applied without effort on your part. And this feature is only one of many that make ironing with Thor real fun.

See Thor demonstrated at our store. It will be a revelation to you.
