

## 1 ARM, 1 LEG, EXPERT TANKER

### Crippled Girl Overcomes Her Handicap

Probably the most unique system used in this country in teaching the art of swimming, was practiced by Tom Robinson, swimming coach at Northwestern university, in instructing Mary M. Gindick, the famous one-armed and one-legged freshman at Northwestern.

Robinson made several attempts to lure Miss Gindick into the pool, but in vain. In the meantime Coach Tom decided to try a number of experiments. He reasoned that if he could make any progress by swimming with one arm and one leg, it should be possible for any other intelligent person to do the same. So he began. It wasn't nearly so hard as he imagined. In a few minutes he could crawl along smoothly in the water by manipulating only one arm and one leg. He did this for several days, making progress each time.

After satisfying himself that swimming under handicap was no impossibility he informed Miss Gindick of his experiments. She now consented to watch him perform. And after seeing him perform, she was determined not to be outdone by mere man.

Togged out in her bathing suit she entered the tank one morning ready for practice. Robinson was confident of her ability to learn. After the third lesson she could crawl very well, and now after several months of training there is hardly any feat she cannot perform in the water.

Mrs. B. F. Langworthy will be the principal speaker at the reunion luncheon for former Camp Osoha girls, their parents and new campers, at the North Shore hotel today. Her daughter, Miss Marigold Langworthy, attended the camp last season.

### Light Week in Building Permits, Records Show

The building boom quieted down last week. In the past seven days only four permits were granted by Winnetka village authorities. The permits represent a total investment of \$28,200.

One permit issued to Dr. Harry Jackson authorized the building of a \$14,000 frame and stucco residence at 1294 Asbury avenue. Two permits for \$7,000 residences were given to Charles and Frank Kristof. The former will build at 1108 Cherry street, and the latter at 1111 Cherry street. Charles Kristof also received a permit to build a private garage at 1108 Cherry street.

Dartmouth men of Chicago and the north shore gathered at the Chicago University club Thursday for luncheon to greet the lads from Hanover who presented their annual musical show at the Aryan Grotto that evening. "The Sahara Derby", said to be among the best of the big eastern college productions of the season, includes in its cast Gilbert Robinson, Harold Hamilton Gibson and L. E. MacDonald of Evanston, members of the freshman class.

that is a peculiar attribute of the Edinger organization. The more we serve the more we succeed and we have succeeded. But this success has not come from our Plants or Money or Salesmanship. We have made ourselves efficient servants of your health, comfort and happiness. This has held your patronage and your patronage has brought our Success.

To our many Patrons and Friends our advice is: Place your order for next winter's coal NOW. The prospects for cheaper coal are not bright and this April's prices are the lowest for some time past and may take an upward trend at any time.

A full coal-bin maketh a light heart and by ordering immediately you may approach the coming winter with assurance and confidence.

We now have a complete stock and are in a position to make prompt deliveries. May we not have your order now and the pleasure of serving you?
