Better Oiling ahead of You—Carbon Evils behind You

USING this better oil is your biggest move toward motor thrift. Tempered puts better oiling ahead of you because it provides a richer fuller body of lubrication and more stubborn resistance to the heat and wear of friction.

And this same Tempered process puts carbon evils behind you by undermining the grit-forming tendency of this black enemy before its deadly work has a chance to begin.

No gritty residue. Its carbon is soft, blowing harmlessly out with the exhaust.

Use it—use it because it holds down carbon troubles—because it is the sturdiest, safest lubricant—because it lasts longer, costs no more to buy and far less to use.
