WINTER'S
COAL
NOW
FROM
US**

It is surely of vital interest to the householders of a community of the character of Wilmette and adjacent towns, that supplies should be obtained on a basis covering the following important points.

- 1st. Best quality, honest weight, prompt and courteous service.
- 2nd. Purchasing when prices are the lowest of the season.
- 3rd. Trading with a well established firm identified with the North Shore district and virtually interested in its welfare and development.
- 4th. The saving of money, time and worry by placing your order now with us.
- 5th. The advantages accruing to early spring delivery before grass is matured and house cleaning finished. Our facilities include a supply of planking for the protection of your lawn, if necessary.
- 6th. Having the services gratis, should you so desire, of an expert who will advise you as to the kind and size of coal best adapted to your needs.
