

'GRADS' FROLIC AT ARDEN SHORE

Annual Home-coming Day to be Observed at Lake Bluff Rest Camp Saturday

MacCHESNEY, SPEAKER

Feast, Games, Movies To Feature Day

BY LOLA BAUMGARDNER

"But wait a bit," the oyster cried, "Before we have our chat; For some of us are out of breath, And all of us are fat!"

This or some other such summing up of the highly satisfactory, and comfortable state of existence of the 40 boys who have been in the Arden Shore winter camp—will greet the 150 or more health graduates, who are scheduled to flock back for the Home-Coming celebration, at the camp near Lake Bluff, April 28.

Arden Shore graduates will proudly make their responses to the camp catechism which contains such significant questions as: Have you kept your weight? Have you kept your job? Are you really making good?

Gen. MacChesney, Speaker

They will listen to an important speaker, Brig. Gen. Nathan William MacChesney, on "War Reminiscences," who is to be introduced by Mrs. Carl R. Latham, of Evanston, last year's Arden Shore president.

The boys will "censor" the first showing of the Arden Shore moving-picture, which later will be released in the theaters of Chicago and the north shore towns.

Raine or shine, everybody who can possibly get there will be on the ground. The association will pay the car-fare. The ravines and the cheery buildings, left so reluctantly for a try in the great industrial world will belong to the "grads" for one glorious day.

"Grads" Own Day

So the old haunts will be revisited, quantities of the camp's special brand of milk and eggs will be consumed, favorite camp games will be played, and the boys will linger until the very last train to talk over their problems with old friends like Miss Ferrier, the doctor, the nutrition expert and other directors.

HEALTH CRUSADERS NOW EMPLOY RADIO IN WORK

On May 17, the National Tuberculosis association will attempt one of the most unique radio "stunts" that has ever been tried in the United States. The Chicago Tuberculosis institute, which is affiliated with the national organization, is in charge of this matter locally.

Through the co-operation of the Chicago Board of Trade, the association has been given permission to broadcast from the radio station on the Drake hotel (W.D.A.P.), which is said to be one of the most powerful stations in the country, a health talk on the Modern Health Crusade. This is the system of practical health

education for children which is sponsored by tuberculosis associations all over the United States and even abroad. It is in use in hundreds of schools and has enrolled millions of children.

It is the belief, and this belief is supported by statistics, that the preventive work for children is the best means of conquering tuberculosis.

The talk will be used as a basis for a test to show that a radio message from Chicago can be heard in every state in the union. Messages have frequently been heard from

coast to coast but radio experts state that there is no record of any one talk having been heard in every state.

There are approximately two million radio receiving sets in various parts of the United States and it is desired to reach as many of these listeners as possible.

The talk will be given by Mr. Charles M. DeForest, the originator of the Modern Health Crusade. Mr. DeForest is a brother of Dr. Lee DeForest, the inventor of the devices that have made long distance radio telephony possible.

Outward Expression

PERHAPS, as has been said, "All is vanity," but nevertheless, one wishes the funeral director who has been called, to have equipment that is impressive and adequate. It is part of the respect that one feels to be due the departed.

We have always been careful to keep all of our equipment up to date in every respect, improving it steadily as better things have been created. You can always depend upon the quality of our service in every way.

How to Get the Most For Your Building Dollars

The answer is short. USE FACE BRICK. It gives you the most in beauty, comfort, fire-safety, durability and economy.

We realize that is a big claim to make. But facts prove that it is true. We haven't space here to give you all the facts, but you will find them fully discussed in "The Story of Brick," a booklet every prospective builder should read before he builds. Come in and get a copy—or send for one.

We have a fine collection of 3 to 8-room Face Brick houses. One will surely meet your taste and needs. Come see them.
