BEAUTY in the Breakfast-Room

This Spring and Summer many women will make a wonderful transformation in their home surroundings. For with the first touch of warm weather, wool rugs and thick draperies will be replaced by cool, cheery Waite Rugs and dainty cretonnes to harmonize.

In the breakfast-room such a change is especially desirable. Here, where one begins the day, appropriate surroundings are particularly necessary. For after Winter's long confinement, fresh summer furnishings are doubly attractive.

Choose only Waite Rugs no matter what room you intend to beautify. For Waite Rugs are easily the finest of their kind. Made from genuine American wire grass, designed by eminent interior decorators, they are the most economical and most appropriate summer rugs that money can buy. Only the best dealers carry Waite Rugs so it will be easy for you to find them.

To those interested, we will send a beautiful free booklet filled with actual photographs of other women's homes dressed in summer clothing. If you would like a copy, write today, please.
