

# FAIRYLAND PLAY COMING, MAY 19

"On Fairies' Wings" to Be Given in Winnetka by Kindergarten College

## LOCAL WOMEN HELP

"Builders" Are Sponsors of Performance

North shore residents, adults as well as juvenile, Saturday afternoon, May 19, at 3 o'clock, will have an opportunity to decide for themselves whether or not Sir Conan Doyle is correct when he declares that there really are fairies, and advances what he claims to be scientific proof. At the time mentioned, prominent north shore women sponsoring the demonstration promise that fairies will appear on the stage of Jane Kuppenheimer Memorial hall of the new Skokie school, Winnetka, when "On Fairies' Wings" is presented by the student players of the National Kindergarten and Elementary college.

"On Fairies' Wings" consists of a depiction of fairyland, as conceived by experts on juvenile entertainment, the young women being trained at the college as future kindergarten and primary teachers. Titania herself, fireflies, Puck, butterflies and good fairies, as well as one who is naughty, will appear as part of the program which is introductory to "Briar Rose," another bit of the land which some skeptics declare is one of make-believe and imagery, but which many true believers agree with Sir Conan Doyle really exists.

**Children are Convinced**  
 "On Fairies' Wings" recently was given twice at the Studebaker theatre, Chicago, under the sponsorship of children of widely known names in Chicago and on the north shore. The first performance was a benefit for the building fund of the National Kindergarten and Elementary College, as will be the Skokie school performance. The second performance was complimentary for children of the missions, hospitals and orphanages of the city. At these performances, Mrs. Philip D. Armour III, a trustee of the college and patron of the benefit, declared that not a single juvenile in the audience manifested any skepticism as to the reality of the fairies. Those in charge of the Skokie school

benefit are the following members of the North Shore Builders' Committee of the College: Mrs. Andrew MacLeish, North Shore Citizens' chairman; Mrs. B. F. Langworthy, North Shore vice chairman; Mrs. Florence S. Capron, North Shore Alumnae chairman. Burke, Mrs. Harry Barnum, Mrs. P. W. Bradstreet, Mrs. Robert Walpole, Mrs. Alfred Burnham, Miss Clementine Eastman, Miss Lillian Griffin, Mrs. Frederick B. Thomas, Mrs. Leslie Gooder, Mrs. Thomas M. Brooks, and Mrs. Arthur M. Barrett.

Division chairmen: Evanston, Miss Anna F. Murray; Wilmette, Mrs. C. P. Dubbs; Kenilworth, Miss Lois Holt; Glencoe, Miss Ethel De Lang; Ravinia, Mrs. Allan I. Wolff; Highland Park, Miss Frances Cutler; Lake Forest, Miss Eleanor Hatch.

## How You Can Avoid Foot Troubles

By wearing shoes that are graceful and stylish but modelled correctly on the lines of the natural foot, with flexibility at the shank to permit the free action of the foot, you can avoid the foot troubles which experts say afflict the large majority of women.

Foot troubles are shoe troubles—rarely anything else. If your toes are cramped, if your foot is restrained and distorted, if your weight is not distributed onto the weight-bearing surfaces of the foot, then your shoes are abusing Nature. Few people can abuse Nature without suffering for it sooner or later.

Cantilever Shoes have done so much for the happiness of women because they follow the natural lines of the foot. The foot arch is flexible, so the arch of the Cantilever Shoe is flexible. There is no strip of metal concealed in the shank of these shoes as in all ordinary shoes.

An eminent foot specialist of New York says: "The foot is a cantilever spring so made that when it is allowed to function normally it carries the body with the greatest possible ease and resilience." (Quoted from Physical Culture Magazine.)

The Cantilever Shoe is designed and constructed to allow that normal functioning of the foot. Remarkably comfortable, good-looking and well made, it is preserving the foot health of many women every day, correcting the foot troubles of many others and giving to all a happiness which it will give to you.
