

N. U. ALUMNI TO PROVE LOYALTY

Hold Annual Candle Lighting Ceremonies

A rekindling of alumni loyalty of thousand of Northwestern University graduates throughout the world will be symbolized by the annual candle-lighting ceremony Friday, May 18, when Purple alumni of various cities will meet in fellowship, sing campus songs and swap stories reminiscent of undergraduate life. George S. Dalgety, executive secretary of Northwestern's general alumni association, has received reports from most of the large cities of the United States—and several foreign cities including Honolulu—that preparations are being made for spirited meetings.

The Chicago Club of alumni will observe the annual candle-lighting day with a luncheon at Hotel Morrison, at 12:30. President Scott will be principal speaker at the gathering, and the deans and directors of the several departments of the university will give short talks. The new executive secretary of the Northwestern general alumni association, Charles W. Ward, will be present and will address the alumni.

President Nathan William MacChesney of the Northwestern university general alumni association will be in Kansas City Friday evening, May 18, to talk to Purple grads. Los Angeles expects to have a banquet with over one-hundred present. The speaker will be Rufus von Kleinsmid, '05, president of the University of Southern California.

Electric Railways Will Spend \$240,000,000

Electric railways of the United States will spend the great sum of \$240,000,000 during 1923 for new equipment and plant facilities, according to a survey of expansion programs. This is in addition to large normal expenditures which must always be made for materials and supplies necessary to continuous operation of the properties of the city and inter-urban lines.

These proposed expenditures are about 60 per cent greater than those

of 1922, which totaled approximately \$151,000,000.

Besides, there is the solid satisfaction of knowing that for structural strength, fire-safety, and economy in the long run, no other material equals Face Brick.
