Former Kenilworth Man Is Blood Poison Victim

Robert Beekman Dyar, veteran of the World war and a former resident of Kenilworth passed away at the Presbyterian hospital Monday night, May 14. Death was due to complications resulting from blood poisoning contracted from a cut suffered three years ago. Funeral services were held from the Kenilworth Union church, Wednesday, May 16.

Although his parents left Kenilworth when Robert was still a boy, he made frequent visits to the village and enjoyed a wide acquaintanceship there. He attended the Joseph Sears grammar school and New Trier high school.

Enlisting in the Navy in April, 1917, he soon after transferred to the 19th Pennsylvania Engineers and was among the first 40,000 Americans to reach France where he remained in active duty for two years, his mother passing away while he was overseas.

Mr. Dyar was married in October, 1922, to Miss Minnie Cornelia Lewis, at that time a resident of Kenilworth.

Mr. Fyar is survived by his widow, his father, Hugh H. Dyar, and a brother, Huntington H. Dyar.

High School to Present 'Hiawathas' Wedding Feast'

"Hiawatha's Wedding Feast," characterized as a delightful cantata, is to be given by the combined New Trier High school music organizations this evening at 8 o'clock in the school auditorium. The cantata will be under the personal direction of Mrs. Homer E. Cotton, supervisor of music at the high school.

Charles E. Lutton of Evanston will sing two groups of songs as a special feature of the program.

Contributing to the evening's entertainment will be the boys' and girls' glee clubs, the orchestra, and the high school chorus.

There's one town in the United States where there are no horses. Wesley Rubgles is the man who discovered it. While in Palm Beach, Fla., recently directing scenes in Agnes Ayres' new picture, "The Heart Raider," he called for two horses to draw a chariot in a bit of symbolism, and his assistants had to spend a large part of the next day scouring the countryside to get a pair of suitable steeds.

MYSTERY PLAY WINS AUDIENCE

"Alias Larkie" Scores Genuine Hit

A shriek in the dark, the lowering of lights—the trapping of a jail bird with a priceless necklace in his hands; a murdered butler—some missing securities—these were the elements that blended last Friday evening at the Evanston Woman's club when Campus players presented "Alias Larkie," by Abram Mendenhall of Evanston. It was a worthy show, played by a worthy cast.

The customers got their money's worth of thrill from Mr. Mendenhall's play. Departing from the usual custom, the central character was a middle aged man—an ex-convict, who comes back to prove his innocence. What happens to him and to those who are interested in the case makes the story. Aside from a denouncement, which was a bit obvious, the tale was skillfully unfolded, and Mr. Mendenhall has another success to his credit.

James Witherell played the title role—played it well. It was by far the best acting this veteran Campus thespian has yet done. The customers expected a meal and they got a feast. The part was evidently one Mr. Mendenhall created for himself, and Witherell fulfilled every specification.

Miss Natalie Purcell of Evanston, Miss Jean Smith and Miss Hope Summers made gestures which indicate an uncomfortable afternoon for many "legitimate" actors, if they take it into their head to go on the stage, while the noble Larry Hall, and William Woodruff, wearing a mustachio, in juvenile roles did themselves proud. Respectively, they played the parts of an engaged girl, an old nurse maid, and a scheming adventuress; the men were an en-

gaged man, and his pal, who attempt the solution of the mystery.

The man who does the dirty work, Arnold Chapin on the stage, and William Ewing on the campus, did his bit well. Everett B. Fox, who managed the production, played the part of the coroner. Millard Smith played Tom Burton, the policeman.

Expect 500 Students in New Trier Summer School

According to the present indications, this year's summer school registration at New Trier high school will pass the five hundred mark. The summer school bulletin just published, indicates that several new courses are to be offered this year. This list includes Chemistry, Commercial Geography, Mechanical Drawing, Penmanship, Solid Geometry, Trigonometry, and additional courses in French and Spanish.

Whether or not all of these courses will be given will depend entirely upon the number of pupils registering. "The only way to make sure that a course which you would like to take this summer is to be offered, is to register now," is the bulletin's word to prospective students. "You will be given an opportunity to change or withdraw this registration if necessary."

Sessions are held only in the mornings.

Wilmette Violinist Scores in Recitals

Last week, Milan Lusk, Wilmette violinist, played in Indiana Harbor, Ind., with marked success. The recital took place in the Methodist church and every seat available was taken. As usual many encores were demanded and after the performance, the program chairman of the Gary Woman's club engaged the violinist for a recital in Gary for November 5. Mr. Milan Lusk was engaged as a special attraction for the yearly musicale given by the Daughters of Indiana at Recital Hall in the Fine Arts Building, Chicago, on May 1.

Besides his extensive concert work an announcement has been made that Milan Lusk will conduct a special summer course at his Wilmette residence.

New Trier Echoes To Be Off Press June 2

"Echoes," a magazine of interest published in May each year by the Senior Class of New Trier Township High school, is expected to be off the press by June 2 and available distribution to all persons interested in affairs at the high school. Copies may be secured at the high school business offices.

Editors of the New Trier Echoes include: Co-editors, Dwight Chapman, George Martin; Associate editor, Dorothy Pick; Business manager, Richard Sunderland; Boys' athletic editor, William Child; Girls' athletic editor, Bobs Waidner; Historians, Estelle Farley, Walter Peck; Committee of facts, Bernice Bulley, Tom King; Photo editor, John McLean; Epigram editor, Ruth Hancock; Class prophets, Walter Hughes, Robert Koretz.

Ouilmette K. of C. Nine Drops One To Avalons

Ouilmette Council, Knights of Columbus baseball nine suffered its first defeat of the season last Sunday when the north shore men succumbed to the Avalon A. C's at the Ridge avenue lot, 10 to 8.

Heinzen did mound duty for the first time this year but vacated the box in the sixth frame when the visitors chased over 3 runs to break a 3 to 3 tie. Miller, who succeeded him, was touched for a quartet of markers.

Belated rallies in the eighth and ninth innings helped the locals to all but knot the score.

The Maywood A. C's will hook up against the Ouilmette crew Sunday at the Lake and Ridge avenue diamond. On the following Sunday the strong Iroquois club team will play here and the Silent A. C. aggregation of deaf-mutes will be seen on the local field on Decoration Day.

The fourth street office of Heinsen and Clark, realtors, boasts of a flaming new sign on the roof of the new building at the corner of Fourth street and Linden avenue. The sign is a large red affair with blue letters.

Freight Rates and Valuation

Wide publicity has been given to the statement that the value of all the railroads of the United States does not exceed \$12,000,000,000, and that if such valuation had been used during the past three years in making rates all freight rates, including those on farm products, would have been materially reduced.

That statement disregards the railroads' right under the Federal and State Constitutions to earn a fair return on the value of their property, and denies the validity of the valuation made by the Interstate Commerce Commission.

It also disregards the fact that the railroads during the 34 months prior to January 1, 1923, did not earn 4 per cent on \$12,000,000,000, although authorized to earn 6 per cent on \$18,900,000,000.

If, however, a valuation of \$12,000,000,000 had been made the basis for rates instead of the valuation found by the Commerce Commission and the reduction had only applied to freight rates, that reduction could not have exceeded 2.1 per cent of the rates collect in 1922. This conclusion is emphasized by the following facts:

GROSS FREIGHT REVENUES OF ALL CARRIERS FOR YEAR 1922	\$4,007,014,655
NET INCOME OF ALL CARRIERS FOR YEAR 1922	776,665,960
5% RETURN ON ASSUMED VALUATION OF \$12,000,000,000	690,000,000
EXCESS OF NET INCOME OVER THE RETURN ON THE ASSUMED VALUATION	86,665,960

A deduction of this excess of \$86,665,960 from the total gross freight revenues of \$4,007,014,655 would have reduced the gross freight revenues only 2.1 per cent. If this reduction of 2.1 per cent had been applied to freight rates, with no reduction in passenger fares or other charges, it would not, in fact, have increased the amount received by the farmer for his products.

GRAIN

A reduction of 2.1 per cent in freight rates means nothing to the individual shipper unless expressed in units with which he is familiar and be large enough to be recognized in commercial dealings. During the year 1922 the Chicago & North Western Ry. Co.'s average haul and rates on grain were as follows:

	Average Haul	Average Rates per Bushel	Reduction per Bushel
Wheat	197 miles	7.14 cents	1.5 mills
Corn	256 miles	7.25 cents	1.5 mills
Oats	210 miles	3.29 cents	0.7 mills

A reduction of 2.1 per cent in this company's freight rates would, therefore, have reduced its wheat rates 1½ mills, its corn rates 1½ mills and its oats rate 7-10 of one mill per bushel.

Experience shows that grain does not vary in price at country stations by less than one-half cent per bushel and ordinarily by not less than one cent per bushel. As a result, the assumed reduction in rates on corn and wheat of less than one-sixth of a cent per bushel would not have resulted in the increase of a single cent to the producer of grain.

LIVE STOCK

	Average Haul	Rates per Cwt.	Reduction of 2.1%	Reduction per Animal, Cents
Cattle	240 miles	23 cents	4.9 mills	4.9
Hogs	210 miles	24 cents	5.0 mills	1.0
Sheep	352 miles	26 cents	5.4 mills	0.5

A reduction of 2.1 per cent would have reduced the rates on cattle less than five cents, on hogs one cent, and on sheep one-half a cent per animal, assuming cattle weight 1,000, hogs 200 and sheep 90 pounds.

Such reductions mean little or nothing to the average producer of farm products, but a loss to the railroads of over \$86,000,000.

M. N. Finley
President
