ORANGE-PICKING SEEMS STUFF FOR THE POETS

Tom Black, former student at New Trier High school, who more recently has been plucking oranges (for pay) in the groves of southern California and Mexico, returned to his school this week and dropped off a bit of verse that merits reproduction herewith.

Tom, as people may know, is a rhymer of some distinction. He pens the accompanying with apologies to Walt Mason. Read it:

LADY OF THE MOMENT APROPOS OF SPRING

In the spring a young man's fancy lightly turns to many things, to the lady of the moment and the ecstasy she brings, scorning tales of disillusion, nigh-contented for the while, living only for the present, the enchantment of her smile. Dreaming dreams of hours of worship, paying homage at the shrine to the perfect senorita, the eternal feminine. Thinking thoughts of moonlight evenings summer months will surely hold, fleeting thoughts he would not barter for infinity of gold. Evenings on some lazy river, on some lake or on the sea, just the ripple of the water and the one and only she; when the moon has laid a pathway—lane of dreams for fairy feet, and the whisper of the nightwind tells a story old and sweet. Ah, but list! my younger brother, with your fancy born of spring, with your lady of the moment and your thoughts that ladies bring; though I dare not dim your vision, though I would not mar your dream—even ladies of the moment are not always what they seem.

Tom With Apologies to Walt.

Well Known Athlete Opens Winnetka Dental Offices

Dr. A. V. Thorsen, well known a few years ago as star athlete at New Trier High school and Northwestern university, has opened dental parlors at 584 Lincoln avenue, Winnetka.

Dr. Thorsen is a native of the north shore. He is a graduate of New Trier, and of Northwestern university schools of liberal Arts and Dentistry.

He gained distinction, both in high school and at college, as a crack runner, his specialty being the mile and one-half events. He also starred at basketball and baseball. He was captain of the track teams at New Trier and Northwestern.

Dr. Thorsen has practiced dentistry for three years. He spent one year at the Cook County hospital and two years practicing in Champaign and Pontiac.

Auto Dealer Necessity Like Butcher and Baker

"The automobile dealer has now become one along with the grocer, the clothier and other merchants who serves constant community needs" says William T. Wersted, of the Wersted Motor company.

"Every community today is depending upon automobile transportation to an extent that makes necessary the constant presence of responsible institutions to sell and service cars.

"The operation of the modern dealer's establishment involves car maintenance even more than car sales. He is the source of automobile transportation in his market.

"The dealer who recognizes this responsibility and prepares himself to meet it will be the permanent dealer. Mere car salesmen will come and go."

Two New York Telephones Have Grown to Million

In 1876, there were two telephones in New York City. They were connected by a single strand of wire, attached to the supports for the Brooklyn Bridge, then being constructed, and spanned the East River. In forty seven years the number of telephones in New York has increased from these two until today there are more than a million in the metropolis of the United States. This is one of the striking illustrations of the development of the telephone industry in America within a half century.

Katherine MacDonald, film star, was married during the week, this being her second venture into matrimony. She is acclaimed as one of the twelve most beautiful women in America.

EVANSTON TRIMS NEW TRIER NINE

Errors Prove Costly to North Shore Crew

Evanston high hopped on New Trier for the second time on the Evanston lot last Saturday morning, taking the contest, 8 to 4. Grant Phillips was on the mound for the high school team, and although he was nicked for nine hits, they were well scattered, and the New Trier lads were unable to make them count.

The Evanston runs were scattered, while the New Trier brought all of their quartet of tallies in the fourth. Phillips struck out two men, and a third flied out in this frame, bringing the rally to a close, and after that there was no more crossing of the home sack.

Roberson, catching for the north shore boys, bobbled three times. Wood, the first man at bat, whiffed, but the catcher dropped the ball, and Wood reached second on it. O'Shaughnessy hit and Wood scored. Soon after, Roberson overthrew second, and the ball rolled to the fence, while O'Shaughnessy legged it home.

Vic New took one healthy sock at the apple, making a two-bagger out of it, bringing O'Shaughnessy in from first, in the sixth.

Johnson started on the bases for the losers. He was fast on the sacks and made two hits, as did his teammate, De Pau. Score:

SELL 395,962 FORDS TO DATE THIS YEAR

Sales of Ford cars and trucks in the United States alone for the first quarter of 1923 reached the enormous total of 395,962, the greatest sales record in the history of the Ford Motor company for a similar period of months. This is an increase of 135 per cent over the same months last year when Ford retail deliveries totaled 168,500.

Even these stupendous figures do not indicate the number of sales which could have been made had production facilities been greater. Every month dealer requirements have been far in excess of the company's manufacturing ability. For May, dealers' orders reached the enormous figure of 300,000 Ford Cars and Trucks.

Following the expenditure of millions of dollars for new machinery, expansion of manufacturing units and enlargement of assembly plants, necessary to maintain the exacting high standards of Ford manufacture, production has been gradually increased since the first of the year until at present the company is operating on a schedule in excess of 6,500 completed cars and trucks a day.

While reservations now are being put on early predictions that this year would see 3,000,000 cars and trucks produced in the United States, increasing demand for Ford products will, all indications are, keep production at capacity rate for the remainder of the year, bringing it well over the million and a half mark by January 1 next, maintaining the established Ford percentage of producing as many cars and trucks as all other manufacturers combined.

Any man who owns an automobile and remains an old bachelor has no one to blame but himself.

Robert Quillen.
