MENIHAN'S ARCH-AID SHOES

The strongest appeal is always—Beauty

Dress is an adornment as well as a protection—and he is bold indeed who shall say that it is wrong for a woman to desire trim, stylish footwear. Unfortunately, the most beautiful feature of the foot, its arch, is frequently the weakest.

If temporary discomfort were the only result of incorrect footwear few women would choose relief at the expense of style. But the weak or fallen arch is a "progressive" failing. . . . It does

not cure itself without assistance. Menihan's Arch-Aid Shoes are beautiful shoes—stylish in line, correct in finish. They support the foot on scientific principles, emphasizing and maintaining the slim, graceful contour of the arches.

Wear them now and you will not suffer the mortification of adopting "homely" footwear to secure relief. We can fit you in this smart, white linen oxford and in many other styles.
