

INJURED MAN IS FOUND BY ROAD

Unconscious Victim Taken to Hospital

A man identified as William Putzler of Glen View was brought to the St. Francis hospital, Evanston, by county highway police, Saturday afternoon, suffering from a possible skull fracture, received as the result of a motor accident on Milwaukee avenue near Niles Center.

The injured man was found lying unconscious by the roadside, with a bicycle near by. County police commandeered the auto of H. Dalporto, who resides at Ballard and Rand road, near Morton Grove, and rushed the injured man to Morton Grove, but failing to find a doctor there, they continued on to Niles Center.

Medical assistance could not be secured there, and the highway motorcycle police formed an advance guard, clearing the way for the speeding auto carrying the unconscious man to the St. Francis hospital. The extent of his injuries were not determined, although it is known that he is improving slowly. It is thought by police that he was hit by a speeding motorist and left lying along the roadside.

PRESIDENT COOLIDGE HERE LAST JANUARY

Next to the late President, Warren G. Harding, Calvin S. Coolidge is the most talked of man in the United States today. Wilmette and north shore residents were especially fortunate in having had the opportunity to hear the new President speak in the village.

As recently as last January, says W. Frank McClure, president of the Wilmette Sunday Evening club, Mr. Coolidge spoke in Wilmette under the auspices of that organization. The fact that he visited Wilmette and addressed a Wilmette audience at a time when he was speaking very rarely takes, on new interest at this time when everyone is talking about the new President.

A great crowd greeted Mr. Coolidge last January. Many shook hands with him and some of the younger people were successful in securing his autograph that evening.

When the President visited Wilmette to speak under the auspices of the Sunday Evening club he was accompanied by his dearest friend, Frank W. Stearns, who is now mentioned in the public prints as President Coolidge's most intimate friend and chief adviser.

Tuberculosis Institute Runs Gross Point Clinic

For the sake of promoting children's health, and in an effort to increase public interest in health problems, the Chicago Tuberculosis institute has arranged a series of infant welfare health clinics to be held throughout this part of the state.

Two of the points scheduled for such clinics are handy for north shore people. In Evanston the clinics are held at the Central school on Monday afternoon, the Crandon school on Tuesday afternoon, the Foster school on Thursday, and the Noyes school on Friday.

A clinic will also be held at Gross Point on Wednesday afternoons from 2:00 o'clock to 4:30. Dr. George Sutherland is the Gross Point clinician, and Miss Elizabeth Horgan the nurse. The services are free of charge.

Announce Sunday Program at Congregational Church

At the Winnetka Congregational church tomorrow morning Rev. A. D. Stauffacher of Northfield, Minn., will be the speaker. Mr. Stauffacher's sermon of last Sunday was a memorial to the late President. His theme tomorrow will be "Marks of a Modern Christian".

The music will include two soprano solos by Miss Sybil Comer—"Come, Ye Blessed," John Prindle Scott and "Prayer"—by David W. Guion.

Other musical numbers will be an organ prelude, "Andantino"—by St. Clair; offertory, "Meditation"—by Halezzy and postlude, "March of the Priests"—by Rossini.

Arthur Van Eweyls will sing: "Worship of God in Nature"—by L. Von Beethoven and "No Flowerlet Grows secluded"—by F. Bach.

WARNS SPEEDERS

The executive committee of the Indian Hill Road association has issued a warning to all drivers of motor cars, taxis and trucks, cautioning them not to drive over 15 miles an hour on the road through the Indian Hill club grounds. The police have been asked to report all violators of the rule.

The closing exercises of the National Kindergarten and Elementary College were held Thursday, Aug. 9, at 4:30 o'clock in the college hall at 2944 Michigan avenue, Chicago.

New Orrington Nearing Completion

With the completion of the Orrington hotel by September 1, a record will be made for construction of a building of this magnitude. Ground was broken for the new hotel January 12, but work was delayed by bad weather lessening the actual building time to seven months. Good will and co-operation of all the men helping to build the structure is given by Mr. Carlson, the owner, as the reason for the remarkable achievement.

RAILROAD FACTS NOT UNDERSTOOD

Consolidation Does Not Promise Economy

"A Duluth paper asked Senator-elect Magnus Johnson three questions," Prof. W. J. Cunningham, guest professor at the Northwestern summer session from Harvard university, said last week. "The questions they asked were: 'Do you favor the repeal of the transportation act? Do you favor a lowering of the rates? Do you favor a decrease in wages for the rail worker?'"

"Senator Johnson replied that he wanted the act repealed, that he wanted the rates for carrying lowered, and that he wanted a substantial wage increase for the rail workers."

Popular Paradox

"Now how you are going to get higher wages for the rail worker and still reduce the rates is more than any economist can figure out. The roads in the northwest are making no money to speak of, less than two percent in fact, and the Supreme court has decreed that a Public Service corporation is entitled to a reasonable return."

"Most persons fail to understand these fundamentals," according to Prof. Cunningham, "and therefore they blame all of the trouble the

farmer is having nowadays upon the roads. Of course the farmers who have put all their eggs in one basket, say wheat, are in hard straights just at present. But the roads which must lower their rates for the farmers are just the ones operating in that part of the country where the profits have been least, if there have been any."

"The Interstate Commerce Commission is proposing to do just the opposite of what the anti-trust laws did in 1912. It is proposing consolidation of the 182 systems now existent into 18, 19 or 20 main branches."

Not Like Groceries

"Railroads are not like groceries. The weak sister in the store business may die out without hurting anyone but the victim, but every community is in need of a common carrier, and consolidation will protect each community."

"However, I disagree with those who hold out a hope for reduction of rates through consolidation. The joining of the roads will make for greater efficiency, will increase the service and the traffic, but it will not

cut down the rates. These must go along at about the scale they would normally, for men worth good money must be kept in charge to keep the railroads running smoothly. In the railroad game there is a saturation point in bigness beyond which you cannot grow and continue to scale down the rates."

A machine driven by Mrs. M. C. Petersen, 417 Cumnor road, Kenilworth, collided with a car driven by William Jackson, Evanston, at Emerson street and Sherman avenue, Evanston, Sunday. Both cars were damaged, but the occupants were unhurt.
