Why Wait?

The Man Who Fills His Coal Bins Now

Knows that he will have his supply when the first cool wave hits us. The other fellow doesn't know definitely—and while we don't like to make predictions—we believe our advice: *"Fill your coal bins now,"* is good advice.

And prices, too, are lower than they have been in several years. Your contract with us will insure getting the greatest number of hot units.

NOTHING BUT GOOD COAL IS SOLD HERE

WILMETTE BUILDING MATERIAL CO.
