**Mortgage Loan Talks**

If you are one of many persons buying your home under a land contract, we have a plan enabling you to borrow up to 60 per cent on a first mortgage. This may be enough to pay off the existing mortgage and the balance of the contract. In addition to the satisfaction which every one feels at having the title to his home in his own name, you have one obligation instead of two. Is our plan not worth investigation?

**Kleen-Heat**  
*NO LABOR • NO COAL • NO ASHES*  
Automatic Oil-Burning Systems

**Kleen-Heat Automatic Oil-Burning Systems Are Proven**

They are long past the experimental stage. Thousands are in use today all over the country and thousands more are being installed this year.

**ARE QUIET**

Kleen-Heat has but one moving part—the motor-pump-fan unit which draws the oil directly from your outside storage tank and delivers it to the fire-pot along with the proper amount of air. There are no nozzles, whirling discs or high speeds to disturb you.

**ARE WORTH THEIR COST**

A Kleen-Heat is an investment—an improvement to your property as well as a comfort to you and your family. In terms of interest it costs you less than your janitor service when you use coal—far less than your own time is worth "tending furnace."

**INVESTIGATE NOW**

Orders received during this month are insured installation before cold weather. Let us tell you more about Kleen-Heat. Visit our nearest demonstration rooms and see a system in operation.
