Good vision is no indication that your eyes are normal. The ability of the eyes to strain in order to see clearly constitutes EYE STRAIN.

The vision test given school children IS NOT THOROUGH enough to detect ordinary EYE STRAIN. More children are retarded in their studies—are considered "dull" or "stupid" because of EYE STRAIN than all other causes combined.

Consider your whole body—what sense or organ is subject to a greater strain than your eyes? If your child squints or habitually scowls, does not care to study, is nervous or irritable, we urge a THOROUGH EYE EXAMINATION.

**Income Taxpayers Get The Early Bird Habit**

Income taxpayers are travelling early to the Federal building with their quarterly installments of income tax due on or before September 15. They were gently reminded by a batch of 77,500 bills mailed to them by the Income Tax Division before August 29.

"More and more the taxpayers are realizing the foolishness of waiting until the last few days to pay up," said the collector, Mrs. Mabel G. Reinecke, as she surveyed those who were already at the cashier's windows yesterday. "They know that if they do wait they will have to stand in line and the only thing people seem to want to stand in line for is a good show. They make things better for themselves and us if they do their paying early."

Los Angeles was recently given the treat of meeting movie stars face to face when a special night was set aside on the Cinderella Roof to celebrate the world's premier of the Warner Classic, "Where the North Begins," starring Rin-tin-tin, the famous Police Dog hero. Claire Adams and Walter McGrail led the grand march with the other stars following while Rin-tin-tin barked his approval.

**DODGE BROTHERS**  
TOURING CAR

The comfort and beauty of this new touring car are instantly apparent.

Long underslung springs, deeper seats and greater body length have resulted in an unusual degree of riding ease.

The body is exceptionally trim and graceful. Swung low to the road, with long, straight hood-and-cowl effect and tasteful appointments, the car reveals new value and sound workmanship in every detail.

The engine—which remains essentially the same—needs no eulogy. It has proved its power and economy to nearly a million owners.
