

CLUB PROGRAMS INCLUDE CIVICS, DRAMA, CURRENT EVENTS

Wilmette's Catholic Woman's Club Opens Friday, September 28

THE Woman's Catholic Club of Wilmette, of which Mrs. W. L. Ballard is president, is beginning a new year of club activities that holds high promise of great efficiency and unusual interest. The club has for this

season officers and leaders in the various branches of work who are showing energy and enthusiasm that will undoubtedly result in a wonderful club season of effective and constructive work. Under the Fine Arts department the musical features will be in charge of Mrs. William Otter, who is now forming a choral society that will give interesting opportunity for study and pleasure and which ought to go far towards increasing social and community spirit in the club. The first program will be held on Friday afternoon, October 12, at the home of Mrs. Charles A. Barton. The book reviews will be a new feature this year and will be given at each meeting. There will be a fine exhibit of Jules Guerin pictures and later on a lecture and exhibit of American Sculpture and many more interesting features have been planned for the year under the capable leadership of Mrs. Frank J. Oelerich. The first club meeting of the season is "President's Day," Friday, September 28. Miss Jean Powell Burns, dramatic reader, will present the one-act play "The Son" by Galsworthy, taken from the play "Romance," and musical selections will be rendered by Mr. Fred Wise, lyric tenor. An interesting program has been arranged for each meet-

ing throughout the year by Mrs. Louis Crush. All who attended and heard the brilliant and instructive talks given by the Civics department of the club last year under direction of Mrs. John Mills, will be delighted with the complete programs she has planned for this year. There should be a full attendance if the present longing for real information on civic affairs means anything. The programs are to start with the regular club meeting in October and will always just precede the regular meeting. Club members are cautioned to be in attendance promptly at 2 o'clock. The progress of the new school holds one of the strongest interests of the members and a series of card parties will be held each third Friday of the month at the homes of different members. These parties are invariably well attended and very successful financially, due to the earnest work of the members who make the school fund their special interest. The next generation of club members who are now banded into the Girls Auxiliary are planning a program of earnest work for their new club year. They made great strides last year under the capable leadership of Mrs. Arthur Lamkey who is again directing them. Miss Edna Seng is the new president this year. The first meeting will be held at her home on Monday, October 1.

Great Opportunity for School Teachers and Mothers

Today the subject of correct and comfortable shoes is a live issue in every community. Doctors and nurses and men and women interested in the public welfare are recognizing the physical and mental advantages of shoes which conform to the natural foot, as opposed to shoes which please the eye and plague the physique.

Teachers and mothers have a wonderful opportunity today to set the younger girls a sensible example by wearing correctly built shoes. Many a young woman will reach the full bloom of happiness in correct shoes who may reach the operating table if she throws an unnatural strain on her nerves and her internal organs by constantly wearing pointed or poorly shaped shoes with high French heels.

Cantilever Shoes are recommended to be worn by school teachers and mothers who wish to be sensibly and well dressed. The arch of Cantilever Shoes is flexible like the foot arch. There is no strip of steel concealed in the shank of these shoes as in all ordinary shoes. The well curved shank provides restful and healthful support, which obviates the tired feeling of long standing or walking. The flexible shank gives the arch muscles freedom to exercise, which corrects or prevents weak or fallen arches.
