Substantial interest has been shown this week in the exhibit of foreign pictures at Carson Pirie Scott galleries done by Mrs. Anita Burnham during her travels abroad a year or so ago. A number of her drawings have been sold and there are a number more now under consideration, which have been reserved for various prospective buyers. The exhibition has attracted no little attention, not only from the painters' friends but from the entire north shore. Many artists have been attracted because of the novelty of its information; the individuality and quaintness in the framing and hanging of these lovely landscapes. Artists praise the pictures for their technical excellence and the exhibition is to be drawn on for examples which will be sent out of the city in traveling exhibitions.
