

## DO NOT DRIVE PUPILS--CLERK

**New Principal at New Trier Announces School "Creed"**

Changing the school to fit the child, and not the child to fit the school, is the leading idea advocated by Frederick E. Clerk, new principal at New Trier Township High school, in a recent article in *Colliers' Weekly*.

Teaching children instead of books, life instead of facts, expression instead of repression or oppression, leading instead of driving, are other items stressed in Mr. Clerk's educational creed.

Hundreds of Wilmette, Kenilworth, Winnetka and Glencoe citizens are interested in the future of the high school.

Frederick E. Clerk

Every taxpayer in the township will want to know what features will be emphasized by the new administration. Almost every boy and girl under eighteen years of age will be vitally affected by the ideas and methods operating in New Trier High school.

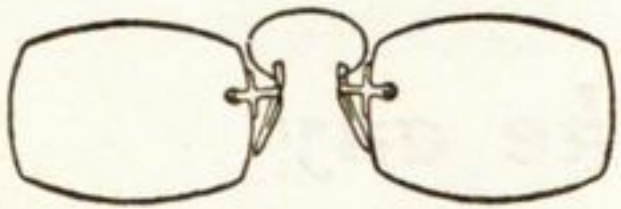

Briefly, Mr. Clerk's ideas are incorporated in the following excerpt from the article in *Colliers' Weekly*:

### The Rules

- Teach children instead of books.
- Teach life instead of facts.
- Teach thinking instead of mere memorizing.
- Teach expression instead of repression or oppression.
- Teach only subjects that have immediate interest and value, instead of merely some vague future worth.
- Teach the habit of grappling independently with all problems instead of looking for some one else's opinion as an answer. Make every problem a challenge to be met, not a worry to be shirked.
- Remember that you can lead children to love work—if you drive them, they will hate it.

## 74 N. U. MEN TO GET SCHOLARSHIP

**Win Honors for Work in the R. O. T. C.**

Major Louis T. Byrne, Professor of Military Science at Northwestern university, has announced the awarding of seventy-four military scholarships, the result of the work of the R. O. T. C. students of Northwestern during the past school year. The money value of the scholarships alone amounts to over two hundred dollars and includes a six weeks' free course at Camp Custer, Michigan. This scholarship is paid in quarterly installments by the War Department in the form of U. S. Treasury checks.

### Helped 100 Men

Last year there were over 100 men at Northwestern who were being benefited by these scholarships and this year there will be over 200 receiving them. Among the men who were receiving them last year and who will continue to receive them this year are: Bill McElwain, Larry Horton, Herman Hathaway, Lowell Hastings, Elmer Higley, Stewart Roberts, Ned Greiner and Granger Cook. Among those who have been awarded them for the coming two years are Dick

Howell, star swimmer; Dudley Kelly, son of Dr. Kelly, head of the local Boy Scouts; James Leahy, chum of the late Louis Aubere; and Edward Meitzer, the director of the Northwestern Band.

### Requirements Simple

In order to be eligible to receive these scholarships, the student must have completed the equivalent of the freshman and sophomore courses given at Northwestern with satisfactory grades and must be specially recommended by Major Byrne. The conditions demanded of the student accepting are simple. He must agree to take courses B-1, B-2 and B-3 as a pre-requisite for graduation and he must pass a physical examination. Men receiving these awards are also given finely-tailored uniforms. The Henderson-Ames company of Kalamazoo, Michigan, have been engaged to make these uniforms for the coming year. The officer to be furnished will be an Officer's model of serge with certain features distinctive of Northwestern University.

In addition to the seventy-four men designated by Major Byrne, other men entering Northwestern University will be entitled to receive this military scholarship. The officers in charge of R. O. T. C. Units at various high schools and military academies may recommend that certain of their qualified students who have completed the equivalent of freshman and sophomore military science receive it. It is estimated that at least seventy men of the entering freshman class will be entitled to this

award. Already many recommendations have been received at the Military Department. The final awards for freshmen will be determined by the vote of the military department soon after the new men register.

### BADGES OF HEALTH

A pleasing color of the skin, a smart gleam of the eye and an industrial carriage of the body is nature's way of telling the world that the owner thereof judiciously mingles fresh air, sunshine, physical exercise, recreation and work. Health officers include these ingredients in the recipe for health lovers.
