N. T. GRADUATES NOW ORGANIZED

Will Have Alumni Day During Commencement

A number of New Trier High school graduates held a meeting at the high school recently where a tentative organization was formed to be known as the New Trier High School Alumni association. At this meeting the following officers were elected:

President, Richard Osgood, 522 Forest avenue, Wilmette; first vice president, James Paterson, 925 Chestnut avenue, Wilmette; second vice president, Joy Scheidenhelm, 704 Lake avenue, Wilmette; third vice president, Kenneth Kerr, 707 Forest avenue, Wilmette; secretary, Frances J. Flentye, 729 Lake avenue, Wilmette; treasurer, Thomas King, 611 Forest avenue, Wilmette. It is proposed that an invitation to

join the association be sent to every graduate of New Trier High school in the hope that a large and influential association may be organized. It is a part of the plan to have the alumni headquarters at the school, at which an alumnus may obtain at any time information concerning graduates of the school in whom he might be interested. Miss Regina Weinman, registrar at the high school, will serve as an executive secretary, having in charge the records and files of the association.

In order that members of the association may be kept in close touch with the affairs of the school, an arrangement has been made with the manager of the "New Trier News" to provide each member of the association with a subscription to the paper to be mailed at each issue.

Membership dues were fixed at one dollar a year. Other expenses in connection with the association will be borne by the Board of Education. The dollar a year will be absorbed in expenses in connection with the "News" subscription and postage and stationery.

As fast as it can be organized a mailing list is prepared, through which channel it is hoped that every graduate will soon receive an invitation to join the

association. The officers of the association have tentative plans for a home-coming celebration to be held at the school for the members of the association, and during

commencement week it is expected that a day will be set aside to be known as "Alumni Day," which will be spent in activities of interest to former New Trier students.

EXPECT GREATER SMOOTHNESS

The balanced smoothness of the new engine in Cadillac V-63 is the greatest advance made by Cadillac engineers since their introduction nine years ago of the V-type motor. An even flow of power, a perfection of

balance at any and all speeds, complete absence of throbbing and drumming, even in enclosed models—you will say with others who have held the wheel of V-63 that this is indeed a new order of things in engine performance.
