

STANDARD OF THE WORLD

A SECOND-SPEED TEST OF V-63

The phenomenal smoothness of operation of the new engine of V-63 is most convincingly demonstrated by its performance in second speed. This is a drastic test for any motor.

Put it to this test yourself. Place the gears in second and accelerate to thirty-five miles an hour. Note the total absence of whirring, drumming noises.

This active and effortless acceleration in second speed is of the greatest advantage in traffic, for V-63 is on its way at a rapid pace the instant the green light flashes.

When you are ready to put V-63 to this and the many other tests which definitely prove its superiority, call the nearest Cadillac Branch and an appointment will be quickly arranged.
