

GIVES RECITAL AT NEW TRIER

Mrs. Edward MacDowell Is the Artist

Mrs. Edward MacDowell, who has established an artists colony at Peterboro, New Hampshire, as a memorial to her late husband, the noted composer, will give a lecture in the auditorium of New Trier High school Monday evening, November 26, at 8:15 o'clock. The entire proceeds, aside from a few minor expenses, will go to the colony, as the use of the hall has been given to further the cause, it is explained.

Mrs. MacDowell's recital will consist of a talk on the work done at Peterboro, with pictures of that colony, interspersed with MacDowell music.

"The Peterboro Colony is no longer a vague ideal of an experiment," states a member of the North Shore MacDowell society, which is interested in the Peterboro project. "It is a practical success."

"During the summer months it supplies each worker with an individual studio, where he may devote himself to his work through the entire day, free from interruption and responsibility. As many of us know, the better the work, the slower the appreciation of the general public, and in the meantime the poet must live. To the majority of Colony members these few months represent the sole time for creative work, as the rest of the year must necessarily be given to earning a living.

"Therefore, it is the object of the Colony to encourage the artist to produce his best and to give him the great opportunity of association with other workers in the allied arts.

"This wonderful place is purely an American ideal and is worthy of your cordial support.

"It is the endeavor of small groups all over the country to raise an adequate endowment fund which will insure the permanency of the organization.

"Tickets may be secured from Miss Helen Sears, 417 Warwick road, Kenilworth. The gallery will be free to high school students."
