

# OLD FASHIONED FIRESIDE SALE TO BE HELD IN GLENCOE

## Fireside Sale To Feature Old World Idea About Thrift

A GLENCOE woman who spent many years abroad, is making the Fire-side sale the means of introducing an Old World idea of thrift. Miss Dietz has enlisted the interest and help of the school children, and the result will be seen at the sale which will be held on Saturday, December 15, afternoon and evening, at the Hawthorn school.

The enthusiasm that is being put into the preparation for the sale is due more to the ideas that will be developed than to the profit that may be expected. If a profit comes it will be used to extend the activities of the Nature committee of the Glencoe Woman's Library club. The women of the committee are more interested in showing what can be assembled in the way of beautiful gifts and objects for the home at very moderate prices. They are striving to make the occasion most pleasant for all who attend.

## Judge Wm. Gemmill Will Talk to Wilmette Club

JUDGE William M. Gemmill who for seventeen years has occupied one of the Chicago benches, will give his address "The Mark of Cain," at the meeting of the Woman's Club of Wilmette next Wednesday afternoon, at 2 o'clock.

Judge Gemmill's long and distinguished service on the bench is exemplified in his eloquent and impressive argument that crime is its own punishment. This program is in charge of the Philanthropy department of the Woman's club and an invitation is extended to all villagers.

In the morning at eleven o'clock, Mrs. Harold B. Maryott, will give an illustrative talk on "Hansel and Gretel," and mothers are invited to bring their children for this delightful program. Luncheon will be served at 1 o'clock.

## Glencoe Affairs Topic Library Club Meeting

"GLENCOE Afternoon" typifies the next meeting of the Glencoe Woman's Library club, which will occur on Thursday afternoon, December 6, at 2:30 o'clock, at the Hawthorn school. The program will be devoted to Glencoe affairs. Matters of civic interest and village problems will be the topics discussed by the speakers who represent the various departments of the community. Mr. Merle B. Waltz, the president of the village, Mr. Arthur B. Rowell, the principal of the school, Mr. Percy W. Armstrong, the postmaster, Mr. Herbert H. Sherer, the village manager, and a member of the Park board, will give the addresses, after which all club members may feel free to discuss any questions in which they may be interested.

A resident of Glencoe, Miss Phyllis Eileen Barry, a young cellist of ability, will give the musical program.

### W. C. T. U. MEETING

The Woman's Christian Temperance Union will meet with Mrs. Mary Prouty, 693 Willow street, Winnetka on Monday, December 3, at 2 o'clock. Christmas arrangements will be made at this meeting.

## Mrs. Burnham to Address Catholic Woman's League

MRS. Anita Willetts Burnham will tell her interesting story entitled "My Travels Abroad with a Family of Six and a Paintbox" to members of the North Shore Catholic Woman's League next Thursday afternoon, December 6, at the Winnetka Woman's club. Mrs. Burnham resides in that fascinating log cabin just at the end of North avenue, in Winnetka, having returned a year or so ago from twelve months of travel in Europe with Mr. Burnham and their children. Her exhibit at the Carson Pirie Scott and company galleries early in the fall was of more than usual interest and many north shore folks who previously had not known of Mrs. Burnham's lovely work visited the exhibition.

The League announces a change in the "Home Inspiration Day" program announced for March 13. The Chicago Plan Commission will be in charge on that day, with numerous illustrative pictures. As the program is of great educational value, members are requested to bring a guest to enjoy the lecture.

## Business Woman's Club to Give Christmas Aid

THE Winnetka Business Woman's club held its regular meeting on Monday, November 26, at Community House. After a short business meeting, the evening was devoted to Bunco.

The next meeting will take place on Monday evening, December 12, at 7:45, in the Community House Neighborhood room. All those who can, are asked to bring some food, clothing, or toys for Christmas charity work.

Those who attend the meetings before paying the membership dues, will be charged a small guest fee.

## Wellesley Club Observes Dedication of Building

ALL north shore alumnae of Wellesley are urged to gather together at 4 o'clock Saturday afternoon, December 5, at the College club on the occasion of the opening of the new Student-Alumnae building which will be dedicated at Wellesley on that date. The day, which has been set aside for meetings of the Wellesley clubs all over the country, will be celebrated in Chicago by an informal social afternoon during which greetings from Wellesley will be heard and views of the new building will be shown.

## Kenilworth Happenings

The get-together dinner of the Kenilworth Historical society given last Saturday was the most important and interesting of Kenilworth events this week. This society is proving of interest to the Kenilworth people and many are eagerly looking forward to the time when they are eligible for membership. There were eighty-five reservations made for the dinner and many telegrams read from members who were unable to be present. Dr. Stolp presided and gave a very cordial welcome to all there. Mrs. Leon Williams of Wilmette, formerly Miss Babcock of Kenilworth, gave a very interesting history of the founding of the Babcock School for Girls. Mr. Alden Sears read extracts from the

Kenilworth News and Mrs. Vibe K. Spicer, historian of the society, reminisced.

The Misses Florence and Beatrice Pease gave a very charming entertainment of songs and pianologues. Kenilworth is very proud of these talented young artists.

New officers elected for the coming year to succeed Dr. Rufus Stolp, president, Mr. Warren Pease, vice-president, and Mrs. Edward Parmelee, secretary and treasurer. Mrs. Vibe K. Spicer was re-elected historian; Mrs. Victor Sanborn, president, Alden Sears, vic-president; Clive J. Taylor, secretary and treasurer, and Mrs. Caroline Ellsworth, chairman of the membership committee assisted by Mrs. Henry Taylor, Jr., and Mrs. John White.

The dinner dance to be given at the Kenilworth club tonight is going to be a grand success. There were 180 reservations in hand on Tuesday. Mrs. John Rathbone is in charge.

Mrs. B. Frank Crane of Menominee, Wis., has been the week-end guest of Mrs. Henry Taylor, Jr., 431 Essex road.

Mr. Bently McCloud and Junior McCloud have returned from the East where they attended the Yale-Harvard game.

Miss Rose Cox will give a formal dancing party for the children of her class on Friday afternoon.

Mrs. Hugh Foresman will entertain her Bridge club this week at luncheon.

Mr. and Mrs. Edward Parmelee of Roslyn road, entertained the Evening Bridge club at dinner at the Orrington hotel on Monday.

Mrs. Harry Vissering, 257 Kenilworth avenue, will be hostess at luncheon and bridge this afternoon.

Mrs. B. C. Howse, Leicester road, entertained at luncheon and bridge on Friday of last week.

## SHENANDOAH'S HOME

Illinois and New Jersey have the only hangars large enough to house the navy's new giant dirigible, the "Shenandoah," which started its career as the ZR-1. Thirty thousand people could be seated on the floor of the hangar at Scott Field, Belleville, Ill. Each of the doors weighs 763 tons. They are opened and closed in a few minutes by electric motors. It would require sixteen men, operating a capstan, one hour to close one of the doors.

STANDARD OF THE WORLD

## A NEW MEASURE OF RIDING SMOOTHNESS

Owners of V-63 and those who have tested it out in personal demonstration tell us that this newest and greatest Cadillac possesses a new measure of riding smoothness. Many of them compare its performance to that of coasting.

This unlaboured and buoyant riding ease is the result of the new, inherently balanced, V-type, 90-degree, eight-cylinder engine. So smoothly and easily does this engine operate that, at 30 miles per hour or upwards, were you to cover the speedometer, you could not judge the speed within ten or fifteen miles.

This principle of motor construction is exclusively the property of V-63, evolved by Cadillac engineers. It is perhaps one of the most signal contributions to motor car manufacture ever developed.
