Committee Opposes Permit For Foxdale Sub-station

The request of the Chicago, North Shore and Milwaukee Electric railway for permission to establish a sub-station on its property at the northeast corner of Foxdale and Humboldt avenues, was opposed following a public hearing on the matter at the Village hall Tuesday of this week by the Plats and Zoning committee of the Village council. The committee will recommend to the council that the permit be not granted.

It was the opinion of the Plats and Zoning committee, in denying the permit, that establishment of a sub-station at the location in question would have the effect of seriously lowering property values, even though the station were not objectionable from the standpoint of architectural design and noiseless operation.

A large number of property owners in the Foxdale-Humboldt vicinity attended the hearing and voiced objection to the proposed project, giving the reasons essentially as set forth in the committee's report to the council.

The committee also recommended that the council consider a more suitable location for the proposed substation in the commercial or industrial areas.
