FOR SALE—AUTOS

The Used Car Department of the Evanston Cadillac Branch offers an unusual assortment of good used cars in both Cadillacs and miscellaneous makes.

To the prospective purchaser of a

new automobile in the \$2,000-\$2,500 class, who would not ordinarily consider the purchase of a used car, we wish particularly to call attention to our late model, reconditioned Cadillac. This car will attract the buyer who demands dependability, superior performance, and, above all, the satisfaction that comes from owning a car whose quality and prestige are universally acknowledged.

Our selections are continually changing, and you will find here at an attractive price a car that suits your needs. Salesroom open evenings. Your present car accepted in part payment.

He pointed out that already there have been issued 92,787 automobile licenses for 1924, with collections of more than \$1,000,000.

Comparing the figures with those of the preceding year, which had hitherto held the record, it is shown that in 1922 the total collections were \$1,943,376, for which 786,190 licenses were issued.

The vast increase in the volume of business handled by his department has by no means overwhelmed it, Mr. Emmerson said.

THE PUBLIC FORUM

Editor Winnetka Talk, Winnetka, Illinois.

Dear Sir:

I have a copy of your paper and wish to tell you that we appreciate very much the space that you are giving to the American Legion. As publicity is one of our greatest assets, I am sure that it will be a great help to the Post at Winnetka in a material way.

Very kindest regards, I am

Sincerely yours,

S. R. KEMP,

Organization Officer,

American Legion,

Department of Illinois.

Near Million Mark In

State Auto Licenses

A total of 973,791 automobile licenses were issued during 1923 and \$14,363,000 in fees collected, Secretary of State Emmerson announced this week. It constitutes the most remarkable record in Illinois' history, he said.

Comparing the figures with those of the preceding year, which had hitherto held the record, it is shown that in 1922 the total collections were \$1,943,376, for which 786,190 licenses were issued.

The vast increase in the volume of business handled by his department has by no means overwhelmed it, Mr. Emmerson said.

He pointed out that already there have been issued 92,787 automobile licenses for 1924, with collections of more than \$1,000,000.

PHONE GROWTH BREAKS RECORD

Illinois Bell Adds 73,000 Stations In 1923

By W. R. ABBOTT (President, Illinois Bell Telephone Company.)

A net gain of 73,280 telephone stations in 1923 in the territory served by it is the record of the Illinois Bell Telephone Company.

All previous records for telephone station growth were broken in the new mark set by the company. The 1923 figure was 13.3 per cent greater than the highest previous year.

To obtain this new high mark the company made a total of 197,361 telephone installations, and discontinued a total of 124,081 telephones.

The station gain in Chicago alone was 51,951. At the end of the year the number of telephones in Chicago was 692,645.

During 1923 the company spent for extensions to its plant approximately \$18,000,000. For 1924, for similar work, the company will spend approximately \$19,500,000.

The additions are necessary to meet the demands of the public, and also to take care of added use of the telephone. In 1922 the daily average number of calls handled by the company was 4,154,931. This was increased to a daily average of 4,635,101 in 1923.

With the added telephone stations must be provided additional plant. Every new telephone must have facilities for connection with every other telephone.

During the war the demands of the

government for both material and manufactured goods used in the electrical industries was greater than for almost any other class of commodities and this demand took precedence over any other needs. The result was that for some time after the close of the war there was a shortage of equipment needed by telephone companies.

This shortage and the rapid growth of Chicago and many other places in the state has made it difficult for us to keep up with the demand for extension of our service. But we are making great efforts to meet this demand, as evidenced by our record of growth for 1923.

The year has been an active one in every department of our business. The large growth outlined above has called for the most active work on the part of the Engineering and Construction Departments and the increase in the number of our telephones has naturally brought increase in the Traffic, Accounting and Commercial work. The number of employees in telephone work in Illinois is steadily increasing. The Illinois Bell now has on its pay rolls more than 24,000 persons.

Although the station growth and the additional number of calls were large, our service, both local and long distance, has been good throughout the year.

In June and August we placed in service in Chicago the first machine switching offices—Central and State, serving about 23,000 telephones in the downtown district of Chicago. The operation of these exchanges has been very satisfactory and the subscribers are pleased with the service.

During the year we offered and sold common stock of our company of a par value of \$10,000,000, also an issue of \$50,000,000 first and refunding mortgage 5 per cent bonds. From the proceeds of this sale we retired the first mortgage bonds of the Chicago Telephone Company due Decem-

ber 1. The remainder of the funds will be used in our
