

## WILLOW SUBWAY TO BE CLOSED

### Village Also Pushed Through Highway Project

Institution of special assessment proceedings looking toward the construction of the proposed through truck highway from Oak street to Winnetka avenue and extending along the west line of the Chicago and Northwestern railroad right-of-way, was voted by the Winnetka Village Board of Local Improvements at its regular meeting this week.

The board also decided to close the Willow street subway, giving as its reason for the action the fact that the cost of keeping the subway open would be excessive. It has been estimated that the cost of constructing a bridge over the railroad right-of-ways at Willow street after the tracks are depressed would be \$250,000, an expenditure which, it is argued, is unwarranted, particularly in view of the fact that all grade crossings will have been

eliminated with the depression of the tracks. Keeping the subway open would also present a serious engineering problem in connection with establishing the grade of the proposed highway, it is stated.

The next step in the projection of the through truck highway will be the calling of a public hearing, it is announced.

Winnetka was the first of the New Trier villages to plan a through highway for miscellaneous traffic. More recently Wilmette, Kenilworth and Glencoe have agreed to co-operate in extending the route throughout the township. Wilmette plans to construct its part of the road next summer. The Board of Cook county commissioners has appropriated \$100,000 toward the proposed highway, which, it is planned, will be a county aid road.

### Country Day Cagers in Win Over High School

The North Shore Country Day school basket ball team defeated the New Trier High school lightweight aggregation in the North Shore gym last Thursday. The final score was 19 to 15.

Spectators witnessed good play on both teams, particularly in the passing department. Free throwing on both sides was decidedly poor.

There is really only one ethical, scientific manner in which to "tone-up" the facial muscles; this is not by using the so-called "muscle strapping" method which attempts to do the work of the muscles, and to that extent weakens them.

Come in and let us give you a real facial.

## When Things

### Must Be Stored

the very best of storage is generally wanted, for things worth storing are usually things one thinks a great deal of, and that have considerable value.

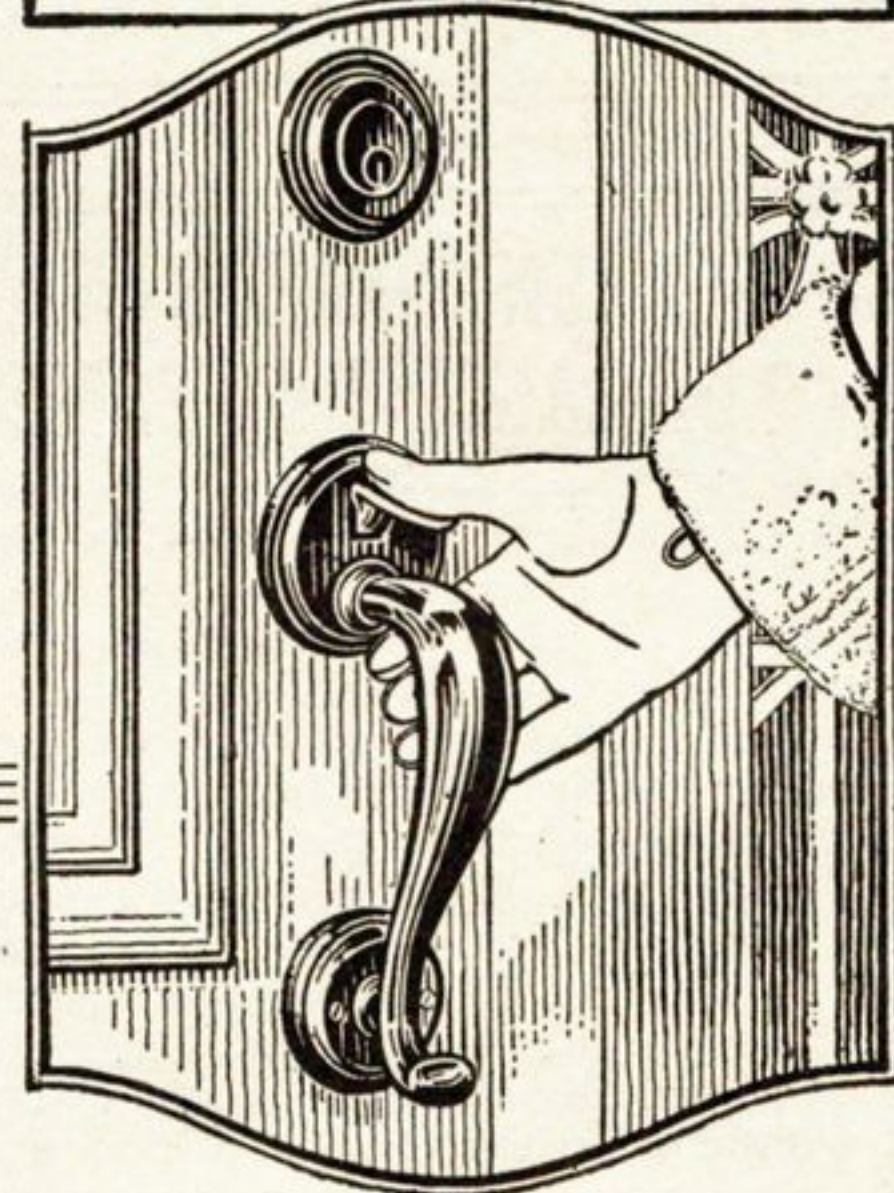

Before you store anything anywhere, we'd like to have you LOOK OVER what we have to offer. Then you'll be SURE of yourself!

**SARGENT**

Locks & Hardware

"Lift up the latch—walk in!"

HOSPITALITY radiates from the colonial doorway when each detail is gracefully and genuinely in keeping. Latches and door handles are manufactured by Sargent & Company to harmonize with all colonial doorways, whether Dutch or New England in style. These handles may be used on one or both sides of the door, connecting with the Sargent Cylinder Lock that provides complete security. Their cordial

gleam of welcome comes from the finest solid brass or bronze. They are beautifully designed—as lasting and as satisfying as the home.

For every door and window in every room in your house there is the proper Sargent Hardware. And remember that it offers you the utmost in security and life-long service.

We are ready to aid you in selecting the proper Sargent Hardware for your home.
