

NEW TRIER SWIMMERS
DOWN OAK PARK TEAMS

With odds of zero weather against us, be prepared to offset these long shots with a good supply of quality coal. We have provided well for the public with our large stock of all kinds of Anthracite "hard" coal and wood with but one grade—"Quality," for we know every economical buyer looks for quality. We can also take care of your needs for the fireplace with Cannel coal and hard wood.

Among other good things, we are well prepared in our Service, which we know is superior in all branches. Ask some of our well pleased customers what they think of that Service and you are certain to receive an encouragingly favorable answer.

Therefore, if the coal in your bin is fading away, call on us and we will help keep the Home Fires Burning.
