**PLAN TO GET OUT THE VOTE  
OF WINNETKA**

To awaken a genuine spirit of response among the women of Winnetka who have not heretofore been availing themselves of the privilege to vote, and to aid the Winnetka league in reaching its goal to increase the vote to 75 per cent, the following plan for getting out the vote has been prepared.

Winnetka has officially been divided into 8 precincts or election districts. The league has appointed a Chairman over each of these 8 precincts. The precincts have then been subdivided into 4 smaller districts with a Sub-chairman at the head of each district. These Sub-chairmen assisted by Block Captains will distribute election calendars and printed matter regarding the platforms and qualifications of all candidates, and they have also been asked to arrange informal group meetings in their particular districts for the discussion of the political issues involved and to assist the women of Winnetka in becoming more intelligent in voting. The league will provide competent speakers for these meetings who will cover the following points: Qualifications of a voter; naturalization of aliens; registration and making of affidavits; importance of the primary; marking of ballots and cumulative system of voting.

In this connection the league wishes to emphasize that any group of women regardless of number, who may desire information about the business of voting, etc., can have a speaker meet with them by calling Miss Elizabeth Gem-

mell, president of the Winnetka league, Winnetka 321, or Mrs. Walter L. Benson, chairman of the Elections committee, Winnetka 429.

**Do Your Banking in Winnetka**

**OVERDRAFTS**

The practice of overdrawing one's bank account is both unwise and unjust. It lowers the depositor's credit, because every time he overdraws his account, it simply means that he is using money that does not belong to him. This complicates book-keeping and is an attempt to borrow money from the bank without interest.

Overdrafts are unbusiness-like as well as unfair. Doing away with this practice will benefit the depositor and the bank alike.

Won't you help us do away with overdrafts in this, your bank? Keeping your balance here growing will do it.
