That meeting was largely, if not entirely, the result of the efforts of a small group of immature and bigoted students who have sworn never to assist in the defense of their country, even in the event of a defensive war, and who have been active in persuading others to take such an oath.

We, who know the frightful cost of war and who hope and pray that there may never be another, unhesitatingly condemn such sentiments as those expressed by Allinson and the group of students referred to in the "Resolutions" signed by Mr. Lynch. We believe such sentiments to be dangerous to our form of government, which not only gives equal opportunity to, but requires equal service from all citizens, in peace as well as in war.

We refrain from answering Mr. Yeomans' studied insult to our Commander in the un-Christian manner which it merits, and which he might well expect from the "standard variety of military mind" darkened by the sinister light of war sacrificed for him as well as for others. Nor do we care to do more than make passing reference to the distasteful, if not blasphemous, parallel which he has chosen to draw. We see no similarity between Christ and Allinson.

We cannot refrain, however, from pointing to that inspired utterance of Nathan Hale, a Christian student of other days, which contains more of the unselfish idealism of Christianity than do those purely selfish oaths sworn to by a few hysterical Northwestern students who owe their present liberty and happiness to the sacrifices made by such men as those reviled by Mr. Yeomans.

Yours truly,

HEALTH WEEK OPENS SUNDAY

State-Wide Observance is Anticipated

The most hearty response in years to the health week program scheduled to open Sunday, April 20, in Illinois is announced in a bulletin issued this week by Dr. Isaac D. Rawlings, state health director. Public schools and local public health workers are particularly active in promoting the observance of the occasion throughout the state.

The most popular features of the local programs will include health play-lets, to be presented by the school children, motion picture films on health subjects, well baby clinics and diphtheria prevention campaigns.

"Every motion picture film available from the loan library of the state health department has been engaged for the week," said the bulletin, "while a half dozen copies of other films have been borrowed from national health agencies to meet additional demands. The entire field staff of the department has been scheduled for local service in connection with well baby clinics or speaking engagements.

"In a number of places such organizations as Rotary Chambers of Commerce and the Farm Bureau have accepted the responsibility of initiating diphtheria prevention campaigns while public health nurses, women's clubs, teachers, health officers, ministers and other public spirited individuals and agencies have busied themselves with this and other features of the program.

THE PUBLIC FORUM

WINNETKA POST NO. 10
Winnetka, Illinois,
April 14, 1924.

To the Editor,
WINNETKA TALK,
Winnetka, Ill.

Dear Sir:
Our attention having been drawn to the letter from Edward Yeomans, which was published in your paper of April 12, we are writing you with reference to the "Resolutions" which gave occasion for Mr. Yeomans' caustic criticism of our Post Commander.

Those "Resolutions" were unanimously passed at a regular meeting of this Post, which is composed of the great majority of all Veterans of the World War resident in Winnetka. They were not prepared by the Post Commander.

The "Resolutions" expressed the regret of this Post at the unpatriotic and seditious movement which has recently given such unsought for notoriety to Northwestern University and the city of Evanston.

There had just been held in Evanston a meeting which was addressed by a convicted war time slacker, and at which the Flag of Our Country was hissed.

GLENCOE HAS TWO BIG REALTY TRANSACTIONS

Elmer F. Wieboldt has purchased, through Gilbert D. Johnson and Brother, a ten-room brick colonial residence, located at the southeast corner of South avenue and Valley streets, Glencoe, from Mildred C. Roberts, for approximately \$60,000. The lot is 272x182 feet and the residence stands on a wooded knoll affording a view across the north links of the Skokie Country club. Gilbert D. Johnson and Brother also report that they have placed considerable vacant property in this section of Glencoe under contract within the past two or three weeks, sales of which will be announced later.

The same brokers have also recently sold for Harry J. Luebke his Glencoe residence, located at the southwest corner of Hazel avenue and Glencoe road, for \$61,000. The property fronts 305 feet on Hazel avenue and 198 feet on Glencoe road and because it is in the business zone of the village, an undisclosed syndicate, acting through the State Bank of Chicago as trustee, paid at the rate of \$200 per front foot on Hazel avenue.
