

JUNE BIG TIME FOR CADILLACS

Chicago Branch Enjoys a Boom Period

June, 1924, was the biggest business month in the history of the Chicago branch of the Cadillac Motor Car company, according to L. B. Southerland, branch manager. Never before has the Chicago branch handled so many Cadillacs as in the last month.

"The extraordinary business for the month," said Mr. Southerland, "undoubtedly is due to the rise in grain prices and the stabilizing effect the last two months have had on the agricultural field. Industrials, too, are firmer and the predictions of a coming season of extremely good business have brought cheer to the country."

Mr. Southerland said that the condition of business is reflected in motor car purchases.

"Business along motor row," he said, "is one of the best barometers of business in the country. When there is a falling off of automobile sales, it is indicative of an unsettled condition, but the tremendous sales we have been enjoying forecast only one condition—good sound business which is on the upgrade."

"This steady business condition, with the qualities incorporated in the new V-63s," Mr. Southerland said, "virtually have broken down the little sales resistance met among prospective buyers."

Tree Surgeon Is Injured in Fall from Tall Tree

While working on a tree on a Sheridan road homesite, last Monday afternoon, the limb on which Stanley Miller, 893 Elm street, was sitting broke and he dropped a distance of 12 feet before the safety rope attached to his waist checked his descent.

While Miller was thus suspended about 30 feet above ground, his fellow

workman, Charles Nelson, rushed to the rescue and brought him to terra firma.

Dr. A. H. Wales was summoned and after an examination discovered that Miller had suffered no broken bones, although it was feared that he may have been internally injured by the impact when the safety rope halted his fall.

Mr. Miller is about 21 years of age and is employed by Thomas J. Lynch, tree surgeon.

Supreme Court Sustains Washburn Skokie Appeal

It will be of interest to Winnetkans to learn that the appeal of William D. Washburn of Evanston, owner of property in the Skokie valley, was recently sustained by the Illinois Supreme court from a decision in the Superior court of Cook county which set forth that the Forest Preserve District of Cook county was acting within its rights in proceeding with negotiations to purchase the Skokie owned by Mr. Washburn.

The Supreme court held that the Superior court was in error in denying Mr. Washburn's appeal for an injunction restraining the Forest Preserve District from purchasing his property.
