

# WOMEN FIND WORK AND RECREATION IN CLUB ACTIVITIES

## Double Threesome Woman's Event at Skokie on Tuesday

BECAUSE of Labor Day, women golfers at Skokie will have their regular weekly match on Tuesday. The event this coming week will be a double threesome, the first event of this kind held at any of the local clubs this season. Six players will use three clubs, one person driving, one person using the irons, and one person putting for each team.

Skokie had its Guest Day on Monday, with a field of about 45 players. The members matched their cards against par, and Mrs. H. G. Phillips won the first place, her score being even with par. Three members tied for second place, their scores all being three down. The guests were awarded prizes for first and second low net, with Mrs. Ritchie of South Shore taking the former and Mrs. Ayres, the latter.

## Library Club Is at Work on Two New Enterprises

UNIQUE in the work carried on by a woman's club on the north shore, is the new venture of the civics department of the Woman's Library Club of Glencoe, which is expecting to conduct a night school during the coming fall and winter. The first step the committee will take to finance this new enterprise will be a benefit bridge given on the afternoon of September 11, at the home of the club's president, Mrs. William A. Fox, 585 Longwood avenue, Glencoe.

Several years ago a night school was run by one of the teachers of the Glencoe public school, with great success, but it was discontinued when she left. A need for such a school is still felt, and the school board is very desirous of its establishment.

Other departments of the Library club are working enthusiastically in their new Gift and Thrift shop, and are preparing for a Rummage Sale September 4, 5 and 6.

One of the features of the shop will be a circulating library, and orders for magazine subscriptions will be taken.

## Qualify for Next Trophy At North Shore Tuesday

ON Labor Day the women members of North Shore will be included in the golf events, for a two ball foursome has been planned for the afternoon. The following day, the regular time for the women's golf matches, will be given over to the qualifying round for the September championship.

This Tuesday the field was made up of 48 fourball mixed foursomes, the men playing at the invitation of the women. The prizes were awarded as follows: Four for the foursome having the lowest net score, and the awards were given to Mrs. C. N. Jonas, Mrs. John Caine, Ben Huggins and Ralph Boozer; Mrs. Frank Wanner won the putting contest for women, with Fren Lenzen and A. D. Collins tying for the men's prize; Mr. and Mrs. Banning won the match against par.

The players all had dinner at the club at the conclusion of the afternoon's match.

## Little Garden Club Holds August Meeting

THE August meeting of the Little Garden club was held August 8, at the home of Mrs. E. L. Davis, 115 Third street. Plans were made for the Garden Show to be held September 12.

A tour of the members' gardens was made. The flowers were very attractive and their beauty was only a little impaired, considering the most unfavorable weather.

## Golfers in Championship Play at Indian Hill Club

A COMBINATION of a slow course and mosquitoes was not conducive to golf at Indian Hill on Wednesday of last week, consequently the Flag tournament scheduled for that day was put off. This week's match was to be decided by choice of partner's score, and in addition, the qualifying round of the club championship was to be played off.

At press time the golf committee had not decided upon the event for the coming week.

## Sunset Ridge Plans for Guest Day, September 2

GUEST Day, once postponed because of rain, will be held on Tuesday of the coming week, according to the present plans of the golf committee. This week the qualifying round of the Sunset Ridge championship was played off, with Miss Virginia Ingram having the lowest score. She also won the approaching and putting contest.

## Test Shows Efficiency of America's Manhood

In the civilian military training camps of 1923 a test of his physical efficiency was given each of the 22,000 young men attending. Four events comprised the test—100 yard dash, running broad jump, running high jump, and bar vault. Spiked shoes and special athletic uniforms were barred. The score in points ranged from 120 points for making the 100 yard dash in 11 seconds, a running broad jump of 19 feet, a running high jump of 5 feet, 2 inches, and a bar vault of 6 feet, 6 inches, down to 20 points for the same events, with results of 15 seconds, 9 feet, 2 inches and 3 feet, 8 inches, respectively.

Each participant was given a score in points and as each state was represented in attendance in ratio to its population, it has been possible to establish a physical efficiency rating for each state as represented by its young men averaging slightly over 18 years of age, who attended the camps.

The average score for the United States was 51.9. Arkansas led among the states with a score of 67. Second and third high scores went to Kansas and Arizona with scores of 65 and 64, respectively. The west, central and southern states topped the list, each of these groups scoring 55. The New England states scored 50, southeastern states 51, and east central states 47½, and eastern states 45½ points.

## DAWES' COMPOSITION WINS PRAISE ABROAD

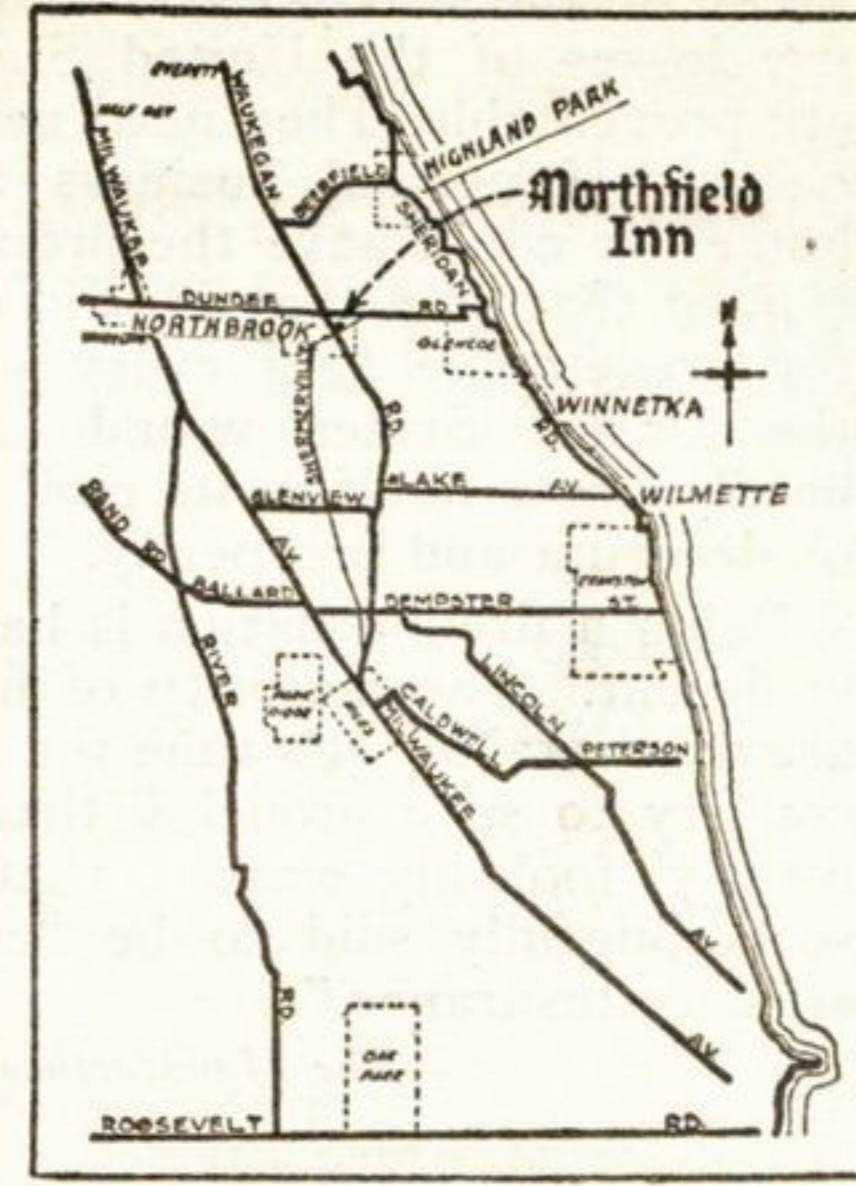

Brig. Gen. Charles G. Dawes, already well known in Czecho-Slovakia, attained further recognition when Milan Lusk, a Wilmette violinist touring Europe, played the general's Melody in A for President Masaryk at the latter's summer residence.

In commenting on the piece, Mr. Masaryk said: "Gen. Dawes' composition is the logical successor to Humoresque. America has produced a man whose vision is as large as your country. Only America can produce a man big enough to see a method to cure Europe's ills and at the same time develop his esthetical side to a point where he can produce a noteworthy musical composition."

Mr. Masaryk has ordered his private orchestra to play the piece daily and it is predicted the Gen. Dawes' composition will sweep the country.

## KENILWORTH HAPPENINGS

The Kenilworth Garden club will hold its first Garden Market, September 19, at 2 o'clock, on Mrs. Charles Ware's lawn, 325 Abbottsford road. Tea and wafers will be served and an opportunity given to purchase iris roots of good varieties as well bulbs. Remember the date.

These prices all cover labor and material

A copy of this book will be sent without charge, on request.

# The Economy of Cadillac Maintenance

EVERY automobile owner recognizes the necessity of making adjustments and repairs from time to time on his car, in order to insure maximum performance. Economy of maintenance, therefore, is as important a factor to the prospective purchaser of a motor car as the inherent value of the car itself.

The book, "The Economy of Cadillac Maintenance," contains complete descriptions and prices on all the ordinary adjustments and mechanical operations, together with a description of the Cadillac Standardized Charge System. It contains convincing proof of the basic economy of owning a Cadillac. Your copy will be sent by return mail, on request.
