## NORTH SHORE LINE

### A Rule of Transportation for the North Shore

A STRAIGHT line is the shortest distance between two points— and a fast and comfortable line is the best. That characterizes the service of the North Shore Line between any two points on the North Shore.

Local, express and fast limited service is carefully arranged to meet the requirements of North Shore citizens.

With double-tracked, stone-ballasted roadbed, the latest steel equipment, including dining and parlor-observation cars, and an operating personnel picked for efficiency and courtesy, the North Shore Line is a real transportation factor of the North Shore.

It is more than a coincidence that the name of the North Shore Line is the same as the territory it serves, for it is identified in every way with the interests of the North Shore. And when residents of every community from Chicago to Milwaukee refer to the North Shore Line as "our line", we are proud of the co-ownership implied.

Fast, frequent trains from the heart of Chicago, the Loop, to the heart of Milwaukee serve every intermediate city and town.
